## Biopsies, kyphoplasty and other services debut at CH-F

Community Hospital-Fairfax (CH-F), MO, announces the addition of procedures that have never before been performed in Fairfax. Expanded services include breast biopsies, core thyroid biopsies and bone, lung and abdomen/pelvis biopsies as well as physician directed and CT and X-Ray guided epidurals for extreme neck and back pain. Kyphoplasty, a procedure designed to restore vertebral body height, will also now be an option for CH-F patients. These procedures are being made possible by the addition of Diagnostic Radiology P.C. from Omaha, Nebraska.

"We are very excited and pleased to offer these new medical services for our patients. Many of the specialists where I refer patients already use this group of radiologists. Our partnership with them will ensure that continuity of care is provided close to home for our community," R. Aron Burke, M.D., CH-F Chief Medical Officer, said.

Beth Mackey, Director of Radiology at CH-F, explains

the new radiology group brings convenience and comprehensive care to CH-F. "Our patients now have the luxury of having certain diagnostic exams done here rather than traveling elsewhere. These new services are a blessing both for our patients and to CH-F, because of the expanded care we now are able to offer," Mackey said.

Diagnostic Radiology P.C., founded in 2004, provides interpretive services to patients, referring clinicians and hospital partners. Community Hospital-Fairfax continues to strive to be the health care provider of choice for the communities served. These procedures will ensure patients receive the care they need, close to home.

## 2010 Census figures indicate need to change boundary line between voting wards in Mound City

Application for CDBG funding denied, bond issue for resurfacing streets may be proposed

The following information was taken from the minutes of the regular meeting of the Mound City City Council on Thursday, November 10, 2011. Minutes are unofficial until approved at the next meeting of the council.

Mayor Larry Russell called the meeting to order at 5:30 p.m. at Mound City City Hall and led the Pledge of Allegiance. Those attending the meeting included Mayor Russell; council members, Jim Krueger, Robert Heck and Kristine Gibson; city clerk, Patsy Smith; city collector, Kelly Miller; water superintendent, Randy Crowley; police chief, John Panning; city attorney, Brian Tubbs; building inspector, Chris Krueger; and Richard Frederick. Councilman, Jason Biermann, was absent.

There being no additions, deletions or corrections, Alderman Gibson moved to waive the reading of the minutes from the October 6, 2011, regular meeting of the council and approve them as presented. Heck seconded and the minutes were approved

unanimously.

Richard Frederick was not present for discussion about the dangerous building at 1012 Mill Street in Mound City, but joined the meeting later. Building inspector, Chris Krueger, reported he, along with Alderman Gibson and Chief Panning, revisited the property on October 7, 2011. Krueger also talked with Jason Knowles about his proposal to Mr. Frederick to repair the roof. Knowles' proposal was for the roof only and not any of the other repairs needed to bring the structure into compliance. Mr. Frederick had requested that the attached garage not be torn down, but Krueger reported that it would be very difficult, and probably more expensive, for a contractor to leave the garage standing.

Later in the meeting, bids for demolition of the 1012 Mill Street building were opened. Stuart Disposal's bid was for \$3,800 for total demolition and clean-up or \$1,800 for partial demolition and clean-up if the city would have the Mound City Rural Fire De-

partment burn it after it was knocked down and pushed to the east. The Hall Construction bid of \$2,500 was for demolition and removal of debris after burning.

Richard Frederick joined the meeting at this point and wanted to know what was going to be done and whether the garage could be left standing. After much discussion and debate, Mayor Russell told Mr. Frederick the building was coming down and that Mr. Frederick needed to get the car out of the garage and remove whatever else he wanted within 10 days. Alderman Krueger moved to accept the bid from Stuart Disposal for \$1,800 for partial demolition and clean-up. Gibson seconded and the bid was approved unanimously.

In new business, census figures from 2010 indicate a need to change the boundary line between voting wards in Mound City. Currently, with Gillis Street being the dividing line, there are 692 residents in the north ward and only 467 in the south ward. The city clerk has reviewed

the census block counts and now proposes moving the boundary line as follows: East to west, along Frazer Street; then south on Nebraska Street; then west on Davis Street; then south on State Street to State Highway 118; then west on Highway 118 to the west boundary line of Mound City. This would move around 117 residents from the north ward to the south ward and leave a more equitable division of 575 residents in the north ward and 584 in the south ward. Council members agreed to hold a public hearing on the proposed change at the December meeting so that it can be implemented prior to candidate filing, which begins on December 13, 2011.

The State Emergency Management Agency (SEMA) has submitted an updated floodplain management ordinance for consideration. Two items for deliberation are: 1. Changing the floodplain administrator from the clerk to the building inspector; and

## Principal Chris Sharp set to retire

Sharp has been the high school principal at Mound City for the past five years, and taught history 9 years prior to the administrative position. "I loved being able to work in the same building as and have access to my own boys," stated Sharp about working at the Mound City District.

Chris Sharp graduated from Craig R-III in 1979, and procured his first teaching and coaching position at Craig School in 1984, after obtaining his degree from Northwest Missouri State University in Maryville, MO. Sharp taught history in Craig for 10 years, before being hired as principal, where he stayed for two years.

Sharp left Craig and took a job as high school principal at Nodaway-Holt R-VII in Graham, MO, where he stayed for 2 years, before beginning his work at Mound City.

Over a span of 27 years in the education field, Sharp has coached football, basketball and track, at all age levels and among both girls' and boys' teams. His teams' success over the years have ranged from teams with

no wins, to winning a state championship. "I enjoyed coaching and teaching the most during my years," stated Sharp.

With Sharp's kids grown up now, he plans to spend his retirement with his kids and grandkids. Finding something constructive to do and not being idle is Sharp's goal for retirement. "It's gone by fast, but I'm excited to move on to the next chapter in my life," he commented.

**U.S. Air Force Colonel Bob Smith**- Prepares for another flight in the Supersaber F-100, taken at the Danang Air Base in Vietnam. This picture was taken in 1985.

## WWII fighter pilot celebrates 90th birthday

Bob Smith of Mound City, MO, celebrated his 90th birthday with an open house birthday reception, hosted by his wife, Joan, at the Nutrition Site in Mound City on Sunday, November 20. Bob and his family enjoyed a good crowd enjoyed the party.

Uniquely, Bob is a retired Colonel of the U.S. Air Force, who felt his aviation career when he was five years old living on a farm east of Mound City. The air-mail route just established between Kansas City, MO, and Omaha, NE, was located right over Bob's parents' farm. The twice daily flyover of "ancient" open cockpit airplanes fascinated Bob. He and his collie dog would regularly chase them across the field, with Bob thinking that if he could catch one, he would have his own airplane and a little pilot to fly it!

After attending country school and Mound City High School, Bob graduated in 1939. With a war in Europe threatening America, Bob and several young kids his age, hurried to California to work in the defense plant to get deferred from the draft.

All was well with a growing income of \$35 a week,

until Japan attacked Pearl Harbor on December 7, 1941. Bob and all his friends threw their deferment cards away and enlisted in various branches of the service.

Bob passed the required two-year level college test and was accepted in the U.S. Army Air Corps. He graduated in 1943 as a 2nd Lieutenant and was assigned to a P-38 Fighter unit in China. He flew fighters against the weakened Japanese forces in China and Indo-China, participated in clandestine operations with the OSI (now CIA) and later returned to the good old USA after the Japanese surrender. He had a brief period as a civilian until April 1951, with entry into the Korean Conflict.

Bob spent 34 years in the Air Force. He is a member of the "3 Wars Association", having flown 320 combat missions in WWII, Korea and Vietnam. He retired in 1979 and returned to Mound City where he and his loving wife, Joan, built a log home just east of town. It's the home that beckons the 90 year-old and his wife when they travel. With only a few days of absence, the couple can't wait to get back to 'good old quiet Mound City'.

**South Holt student, Taryn Weber**- Rocked and read during time she spent at the Rock'n for Food event held at King and Proud in Oregon, MO, on Thursday, November 17.

**MacKenzie Bohart, South Holt School student (left)**- Spends time rocking during the Rock'n for Food held at King and Proud on Thursday, November 17, in Oregon, MO. Proceeds from the Rock-A-Thon will help provide groceries for the daily living skills room that Mackenzie utilizes. At the right is one of the special education teachers, Bryana Haugen.

## Rock'n for Food

It's hard to learn how to cook for oneself by just discussing it. There is a need for hands-on instruction with real food, but food costs money. Those factors were the driving force behind the Rock'n for Food Rock-A-Thon that was held at King and Proud in Oregon, MO, on Thursday, November 17, from 11 a.m. to 10 p.m.

King and Proud owner, Enola Kerns, devised the the Rock'n for Food concept, and the South Holt teachers were delighted to go along with the idea. The three South Holt special education teachers, Bryana Haugen, Pam Weber and Jennifer Graham, assisted with the fund-raising project.

Three rooms at the South Holt School are dedicated to the teaching and nurturing of special education students. The school funded the complete renovation of one of the rooms during the summer of 2011. This new daily living skills room is now utilized by 6-7 students. The room was

equipped with a full kitchen and laundry facilities. The space enables the teachers to assist the students in becoming independent by teaching them life skills. Cooking, cleaning, washing and drying dishes, and doing laundry, are some of the tasks.

When working with the students in the cooking realm, affording groceries for the projects can become an obstacle. The Rock'n for Food project allowed people to come in and rock in a rocking chair for 15 minutes for a donation of \$5, or some just gave contributions. A treat table (made by the students) was laid out for 'rockers' during the day's project. The event raised nearly \$700. The daily living students cook for school functions such as providing for the hospitality room, school board meetings and other events. Rock'n for Food was an excellent way to assist in promoting independent living through the daily living skills room at South Holt School.

## McCaskill measure would stop Army Corps from offering to buy flooded properties

During summer flooding, some Missouri property owners received offers to sell their property to the government, prompting Senator's action

During widespread flooding in Missouri this past summer, many owners of flooded properties received letters from the U.S. Army Corps of Engineers offering to purchase their property - an action strongly rebuked by U.S. Senator Claire McCaskill, who has introduced a measure to prevent similar inappropriate offers from the Corps in the future.

Under a wildlife restoration program, the Army Corps has the authority to make unsolicited contact with property owners and offer to purchase their land. McCaskill wrote to the Army Corps in July, calling the practice during summer flooding, "poorly-timed" and "ill-considered".

In her letter to Brigadier General John McMahan, Commander and Division Engineer of the Northwestern Division of the Army Corps of Engineers, McCaskill stressed that flood events are a trying time for the many communities and residents along the river's reach, and that it is improper for the Corps to issue such letters when those affected continue to work around the clock attempting to prevent the loss

of their livelihoods.

Now, McCaskill has introduced an amendment to the Energy and Water Appropriations Act which would forbid the Army Corps from sending such unsolicited letters to property owners during a flood event.

McCaskill is also supporting a related amendment by Senator Roy Blunt which would reduce the funding available to the Army Corps

for purchasing property under the wildlife restoration program, and instead direct more resources toward the Corps' general operating budget for efforts such as flood control. A third measure, also being offered by Blunt and McCaskill, would eliminate bureaucratic obstacles - such as environmental assessments - to rebuilding breached levees, as long as those levees would meet the

same criteria as the original.

Earlier this year, McCaskill and Blunt launched the bipartisan Missouri River Working Group, a first-of-its-kind group aiming to address flood control issues along the Missouri River Basin. In addition to the Missouri Senators, the group includes Senators representing Kansas, Nebraska, Iowa, South Dakota, and Montana.

## Holt County Christmas Toy Fund still accepting applications

The Holt County Christmas Toy Fund committee had applications for 30 families and 71 children as of Friday, November 18. The original expectations were for 100 children, which committee members still believe they will receive. The last day to turn in an application is Wednesday, November 23. This is so the committee can plan on shopping nights during the first two weeks of December. The committee will still consider all applications received after that date.

The toy fund committee did not set a goal as members were not sure what to expect after a year of floods, storms and a questionable economy. They are so thankful for a very generous community that has donated \$4,700 to date.

Food vouchers of \$25 for the head of household plus \$5 for each additional family member will be presented. Any excess funds will be allocated to either more toys or food so all donated funds will be divided among the applicants.

Committee members are still mindful of their plan to make sure all children have a Christmas. If anyone knows of a child not covered, please call Edwin Jones at 660-442-5668 or Terry Martin at 660-442-5206.

# 2010 Census figures indicate need to change boundary line between voting wards in Mound City

Application for CDBG funding denied, bond issue for resurfacing streets may be proposed

**Continued from front page**

2. Increasing the elevation of the lowest floor to one foot above base flood elevation (BFE). Currently, the local requirement is the lowest floor at BFE. SEMA recommends 1' above BFE. The ordinance also includes some new definitions. Council members feel the lowest floor elevation should remain at BFE and will conduct a public hearing for citizen input at the December meeting.

The monthly report of the Mound City Police Department was reviewed and discussed. Chief Panning reported that Officer Martin has resigned, as of November 6, 2011. An ad was placed in the *St. Joseph News-Press* for applications and Panning will be posting a notice at the law enforcement academy for recruitment.

Clerk Smith mentioned that Chief Panning was to attend a Missouri Intergovernmental Risk Management (MIRMA) seminar in December, but will not be able to attend since he is the only officer in town. Alderman Heck expressed appreciation to Chief Panning for all the extra on-duty and on-call time that he has done while being shorthanded. Other aldermen and the mayor also thanked him for a job well done.

Clerk Smith reported that the lagoon effluent tests for ammonia have been slightly over permitted limits a couple of times. This is a new requirement on the Department of Natural Resources (DNR) permit issued in 2009. Brock Pfost, White Cloud Engineering, is working with the city in trying to get an exception from DNR. If one is not granted, Mound City will need to submit an engineering design plan to remove the ammonia. Engineering, construction and maintenance would be very expensive.

During annual maintenance, a section of the sewer main on Nebraska Street was found to have settled and could have caused a major backup. The manhole had to be plugged while repairs were being made, which caused a backup into Doug and Trula White's basement. The Whites recently had a backflow device installed, and it worked properly, but it is believed that the backup was from their water use while the main was plugged. A claim has been filed with MIRMA and indications are it will be covered.

City officials have received notification that the application for Community Development Block Grant (CDBG) funds for resurfacing streets was denied. Council members discussed submitting another application, but Mayor Russell was told it will take several years for the state to get through all the costs of this year's disasters. Mayor Russell pointed out that, at some point, the city will have to repair or resurface the streets, with or without grant funds, and fix the Davis Creek bridge. Mayor Russell discussed possibly piggybacking on with the Missouri Department of Transportation (MoDOT) to get a cheaper rate on asphalt with all of the repairs that are being done on roads destroyed during the flood. Council members discussed financing the repairs from existing funds, but most of the city's cash funds are in the water and sewer accounts or other restricted funds. Council members agreed to look at placing a bond issue before the voters for resurfacing streets.

Randy Crowley reported that there are numerous problems with the new snow plow and spreader, which were just installed by Knapheide on the new pickup last week. Knap-

heide will be coming up to get the truck to make repairs.

Alderman Gibson reported that she will be meeting with Larry Knapp to decide where to place new signs at Griffith and Chautauqua parks. Gibson is also looking at a grant and seeking donations to help finance a new BBQ pit at the shelter house in Griffith Park. The new swing set for City Hall Park will probably not be installed until next spring.

Randy Crowley reported he spoke again with Kent Klaas about specifications for the new electrical system at the pool, but Klaas has not had time to get anything pulled together yet. It was suggested that city officials may need to check with other electricians to see if they would be able to do the specifications any sooner.

Chris Krueger was contacted with concerns about the safety of the building located at 106 East 7th Street. The roofing blew off of it last year during a storm and no visible repairs have been made. There is concern that rain water is going straight into the building. Attorney Tubbs suggested a letter be sent to the owner notifying him that a complaint has been made and there are concerns.

Bill No. 11-10-2011(1): Authorize Sale of Property to the Mound City Community Center, Inc., was placed on its first reading being for an ordinance entitled as follows: An ordinance authorizing the mayor to enter into the documents necessary to effect the sale and conveyance of a tract of real property owned by the city of Mound City and providing for an effective date. Alderman Heck moved to adopt the bill, Gibson seconded. After further discussion, the bill was placed on its second reading and final passage, and was read by title, considered and discussed. The bill was approved unanimously and duly numbered Ordinance #1184.

## Tuesday Club meets

The Tuesday Club met at the home of Wava Duncan in Mound City on Tuesday, November 8. Roll call was, "When was the last letter you wrote or mailed?"

President Sandra Fuhrman conducted the business meeting. The Christmas Party will be held at 6 p.m. Tuesday, December 13, at The Klub in Mound City. It was announced that the Christmas Tour of Homes will be Sunday, December 11, and that Tuesday Club members will help at Robert and Kris Gibson's home.

Leisa Biermann drew the club's State Theater season tickets to attend the November 18 show and Judi Long drew the tickets for the Kansas City Chorale December 10 show.

Wava Duncan gave the program: "Destination - New Orleans", a place she has visited several times. She told of many interesting aspects of the city, known as one of the most unique in America, with its history, architecture, cuisine, music and location below sea level. She served delicious refreshments appropriate to New Orleans - pecan pie and pralines.

Attending were Leisa Biermann, Linda Boultinghouse, Linda Creed, Patty Davis, Wava Duncan, Sandra Fuhrman, Kris Gibson, Barb Heitman, Susan Laukemper, Judi Long, Jane Meadows, Sheri Meadows, Brenda Ryan and Kay Sitherwood.

## Old gas station undergoing transformation

The Sinclair station, that has been empty at the corner of State Street and Ninth Street in Mound City, MO, for about 7 years, is showing signs of life. Members of DSM Contracting Company out of St. Joseph, MO, have begun a complete renovation of the building. The building will eventually become Frog Hop Gas Station.

The Frog Hop Gas Station franchise was started by owner, Shakeel Khan of St. Joseph, MO, who purchased the property from Bill Hutting (Sportsman's Lodge owner) in November. "I saw the location and the traffic count that comes by the area and thought it would be a great place to start a business. We'd like to help Mound City grow," stated Shakeel Khan.

The inside of the building is receiving a complete renovation. The green roof of the building was being painted on Friday, November 18, as well as other improvements being done at the site. Currently, there are plans on the table to secure a satellite food chain (Taco Bell, Pizza Hut, etc.) for the building, but those plans have not yet been approved.

New fuel pumps, which will include road diesel, broadens the consumer base for the company. The old concrete fuel contain-

ment will be torn out and replaced. A circle drive will be added behind the building, allowing fuel tankers easier access. Proper fuel permits are still being acquired, but should the convenience store be ready prior to the red tape necessary for fuel, the store will open.

Shakeel has a second store opening on December 1, south of Belt and Pickett in St. Joseph, MO. The Frog Hop stores offer a full line of convenience items, including coffees and sodas. It is the owner's hope that the Mound City location will open prior to March 1.

## Graves moves to extend and expand teacher tax credit

*Deduction for out of pocket expenses will expire in December*

U.S. Congressman Sam Graves of Tarkio, MO, introduced legislation to extend and expand the teacher tax deduction for teachers who purchase classroom supplies for their students with their own money. Graves proposes extending the tax deduction to 2017 and increasing the amount deductible for full-time teachers from \$250 to \$500. It would also create a new tax deduction of \$250 for part-time teachers.

"Every year, teachers across Missouri dip into their own pockets to purchase classroom supplies they believe will benefit their students and create a better learning environment," said Graves. "We should support teachers who are going the extra mile for our children."

Full-time teachers are currently eligible for a \$250 tax deduction if they personally invest in classroom supplies for their students. Without

Congressional action before the end of the year this deduction would expire. The legislation has bi-partisan support.

"Teachers play an important role in our children's success," said Blaine Luetkemeyer, Missouri's Ninth District Congressman. "This legislation would help teachers who go the extra mile to ensure their students have the supplies they need to be successful in the classroom. By supporting teachers, we ensure that our children are prepared for the future."

The bill is also co-sponsored by Congressmen Mike McIntyre of North Carolina, John Barrow of Georgia, Dave Loebsack of Iowa, William "Lacy" Clay, Jr., Russ Carnahan and Blaine Luetkemeyer of Missouri. H.R. 3148 has been referred to the House Ways and Means Committee.

## Caleb Wright receives American FFA Degree

Caleb Wright, a past member of the Craig, MO, FFA Chapter, received the American FFA Degree. Earning the degree means that Caleb is one of a select group of individuals recognized for years of academic and professional excellence. The honor was presented on Saturday, October 22, 2011, at the 84th National FFA Convention, held in Indianapolis, IN.

### Local youth participate in Knights of Columbus soccer challenge

The Knights of Columbus (K of C) Soccer Challenge is sponsored annually, with winners progressing through local, district and state contests. International champions are announced by the K of C international headquarters based in New Haven, CT. These champions are based on scores from the state level competitions. All males and females, ages 10 to 14, are eligible to participate and will compete in their respective age divisions. All contestants on the local level are recognized for their participation in this event. Participants are required to furnish proof of age and written parental consent.

The Knights of Columbus is an international Catholic family fraternal service organization with 1.7 million members in over 14,000 local councils. Last year, the Knights donated 68 million volunteer hours and 150 million to charitable and benevolent causes.

All male and female soc-

cer players, ages 10-14, were invited to participate in the second level of soccer competition at St. Pius X High in Kansas City, MO. On Sunday, October 16, 2011, the Knights of Columbus hosted the regional competition.

The following local champions from the Savannah, MO, area traveled to Kansas City. Andrew Roarty, son of Brian and Felicia Roarty, won the twelve year-old division. Kennyn Sandy, son of David and Kristi Sandy, won the thirteen year-old division; and Trent Young, son of Dayne and Tonya Young, won the fourteen year-old division. All three young men traveled to Jefferson City, MO, on Sunday, November 6, to participate in state competition. Andrew received second with Kennyn and Trent receiving first in their age divisions. All three youth had their scores sent to the national competition. Trent Young is the grandson of Patty Young of Mound City and Pat and Larry Smith of Maitland, MO.

### Lakeshore Grill is back in business!

**Ryonee Curtis** - Is once again behind the counter at Lakeshore Grill at 123 Lakeshore Drive in Big Lake, MO. After being closed for months (May to October) due to the 2011 Flood, the business, which just opened under new management in April, 2011, is welcoming dining customers with daily specials. The restaurant is open Tuesday through Sunday of each week, is closed on Mondays, and will be closed on Thursday, November 24, Thanksgiving Day.

### Soil testing of flooded fields

The Missouri River was out of its banks for several months and this has an impact on the availability of crop nutrients. First of all, when soils are saturated, they are in reduced state, so chemically, the phosphorus levels, if tested immediately after draining, will be misleading. One should test soils after soils dry and return to normal moisture levels. Readings of comparison samples of the Graves Chapel Field before and after indicate a higher phosphorus soil test value.

Fallow Syndrome is another issue that may be found in flooded soils. Often the syndrome shows as a classic phosphorus deficiency symptom when the corn crop was planted. It would be advisable to add phosphorus fertilizer even on high testing soils to help crop growth. One reason for this symptom is the loss of vesicular arbuscular mycorrhizae (VAM), a fungi that forms an addition to the crop root system, that takes up nutrients for use

by crop plants. An example of the fungi is the yellow fine roots of a corn plant that quickly fade after being exposed to sunlight. The yellow color is colonized by the mycorrhizae.

Also, there have been several questions regarding the white material that was deposited on some fields. I ran a couple of tests, one at a standard depth of six inches and another of the surface one-inch depth.

The white surface contains calcium, which would be typical of where the water came from. Soils to the west of Missouri are generally alkaline and soils in Missouri and eastward are acidic. Also, there is sodium, which was measured by electrical conductivity. The data would indicate that mixing this into the soil to dilute this layer would be ideal.
