*Serving all of Holt County, Missouri, since 1879. Home of Squaw Creek National Wildlife Refuge & Big Lake State Park.*

THURSDAY • MARCH 18 • 2010

## “Ask A Doc” open forum this Friday

Community Hospital-Fairfax will be hosting the “Ask A Doc” open forum on Friday, March 19, 2010, at the First Christian Church in Mound City, MO.

The doctors will begin answering questions at 12:15 p.m. Guests are invited to come as early as 11:30 a.m. for free screenings pertaining to heart health from CH-F staff members.

For more information, call 660-686-2211, ext. 259.

## St. Pat's Potato Bar to be held in Maitland

The Tri-City Friendship Center will be hosting a St. Pat's Potato Bar on Sunday, March 21, from 11:00 a.m. to 1:30 p.m. at the center.

The dinner will also include salads, pies, cakes and more. Door prizes will also be handed out.

Admission will be \$7 for adults and \$3 for children under 10.

All proceeds go toward building upkeep and the continuation of services.

## Methodist Church to host Baked Potato Dinner

The Mound City United Methodist Church will be hosting a Baked Potato Dinner on Sunday, March 21, from 11:30 a.m. to 12:30 p.m. at the Methodist Church.

The dinner will include a baked potato, your choice of soup, salad and dessert.

Freewill offering will be taken. All proceeds go towards seeding area youth to church camp this summer.

## HCHS to host an afternoon of memories

The Holt County Historical Society will be hosting an afternoon of Mound City memories on Sunday, March 21, at 2:00 p.m. at the Christian Fellowship Church in Mound City.

Ellouise Robinson will be sharing a look back at the early days of the town with her historic slide presentation.

Individuals, clubs, churches and organizations are invited to bring photos, clippings, histories and memorabilia. There will be tables set up for displays.

The society is still searching for photos to be included in its planned publication, “History of Mound City”.

Anyone with pictures to share can bring them along that day. Kathy Daly will be scanning photos at the church, beginning at 1:00 p.m. as well as after the program.

**Craig third grade student-** Leslie Nenneman, left, was one of the lucky recipients of a chance to throw a pie in Coach Grant Tysdahl's face during the Pi Day celebration at the Craig School on Monday, March 15.

## Pi Day celebration at Craig R-III

The third annual Pi Day celebration, normally held on March 14 (because the value of Pi is 3.14), was hosted by the Math and Science Club at Craig R-III School on Monday, March 15, in an effort to promote an interest in math and science. The club's sponsors are Melanie Brandon and Trudy Heitman.

In math class, students who could spell Pi, provide the approximate value of Pi and explain the origin of the value, were treated to a slice of either chocolate or vanilla pie, prepared by Dottie Biermann.

The highlight of the celebration was the “pie toss”. Votes were cast the week prior to the event to see who earned the right to have pies thrown at his/her face. Coach Grant Tysdahl received the biggest vote and a total of seven whipped cream pies were tossed at his

face. Richelle Meyer, a seventh grade student, qualified to toss the first pie by winning the limbo contest while carrying a pie. Kevin Dodson, Wyatt Drewes and Kelsey Sipes won the opportunity to toss pies by being the highest bidders when chances were auctioned off by Ralph Ball, Ag instructor/auctioneer. Three lucky elementary students also were allowed to throw a pie when their name was randomly drawn including Skylar Miller-first grade, Angel McCallan-first grade and Leslie Nenneman-third grade.

Other limbo contestants included Logan Keparth-eighth grade, Wyatt Drewes-ninth grade, Thauan Andrade-tenth grade, Alex Rowland-eleventh grade and Jordan Showalter-twelfth grade.

The event was a fundraiser for the club.

## School Bond issue back on the ballot

The school bond issue that would improve the Mound City School District facility is back on the ballot for April, having failed to acquire the required amount of votes to pass in November. The building, which has had no additions in the past 36 years, would see remarkable changes that would impact the students and community in numerous ways.

The proposed project would, first of all, upgrade disability access to more of the building, making an entire level accessible for students with disabilities. The existing middle school area, band room, and gym, with the addition of the newly proposed classroom area and new multipurpose room, would all be handicap accessible.

The project would add needed classroom space. Nine separate programs now share space and many classrooms are at or above capacity as required by the Missouri Improvement Standards. The project would provide a new science lab with upgraded equipment and chemical storage, an item that hasn't been addressed for 46 years. Additionally, the space would allow for a technology center capable of servicing 275 students.

The proposal would add an additional classroom space via the student/community multipurpose room. The current

gym, serving as a classroom, has its classes interrupted 42% of the time by events, banquets and assemblies. With the addition of the multipurpose room, classes can run simultaneously. Athletic practices will also be able to be held simultaneously. The multipurpose room will be able to be accessed by community members for walking and possible other functions with approval from the school.

The addition would add a concession area and bathrooms at the gym and multipurpose level, making the space very user friendly.

Currently Craig, Fairfax, Nodaway-Holt, Rock Port, Tarkio and South Holt have multipurpose rooms.

The bond issue asks voters for approval of a \$.69 tax increase per \$100 of assessed valuation. This would be an increase of \$41.40 for every \$50,000 of agricultural land, a \$70,000 home would see a total tax increase of \$98.33 per year and \$25,000 in personal property (car, pickup, boat, etc.) would show an increase of \$57.44.

The bond issue would bring Mound City's tax levy to \$4.45, which would still be lower than Craig, Jefferson, Nodaway-Holt, Northeast Nodaway, North Andrew, North Nodaway, South Nodaway, Maryville and Stanberry.

## Attorney General's office to offer Sunshine Law workshop

A free workshop pertaining to the Missouri Sunshine Law will be held on Wednesday, April 14, at 6:30 p.m. at the State Theater, 510 State Street, Mound City, MO. The public is invited to attend, along with all interested elected officials and members of boards and commissions.

This one hour presentation will be conducted by Tom Durkin, public education director for the Missouri Attorney General's Office.

The workshop is part of an ongoing effort by Attorney General Chris Koster to provide government officials with the support they

need to be well informed in conducting their business in a way that brings transparency and fairness to all aspects of government. Topics covered in the presentation will include:

- Who does the Sunshine Law apply to?
- What is a public meeting?
- What is a public record?
- Liberal construction of the law;
- Procedures and limitations for closing meetings and records;
- Appointing a custodian of records; and
- Fees for copying public

records.

For additional information regarding the April 14 meeting, contact Tom Durkin at the Attorney General's Office, 573-751-8843 or Adam Johnson at the *Mound City News*, 660-442-5423.

The Attorney General's Office also offers a free booklet containing a summary of the Sunshine Law, frequently asked questions, interpretations of the law and sample forms for public governmental bodies. If you would like to order publications, call 573-751-8844 or submit your request online at ago.mo.gov.

## 275 Conf. All-Senior Basketball Classic set for March 29

*Classic to feature area athletes and coaches*

The 275 Conference All-Senior Basketball Classic is coming back this year and will be held at the Tarkio High School Gym in Tarkio on Monday, March 29, 2010. The 275 Conference All-Senior Classic is being sponsored by the Tarkio R-I Athletic Booster Club, *Tarkio Avalanche*, *Fairfax Forum*, *Mound City News*, and *Atchison County Mail*.

The purpose of the classic is for the senior basketball players from the schools in the 275 Conference to get together for one last time after having competed against each other through four years of high school. There will be two 20-minute halves and two timeouts for each game. The girls and boys will be divided into separate teams, with the boys playing two separate games because of the amount of senior boys in the conference. The games begin at 5:30 p.m. with a boys' game, White Team (A) vs. Red Team (A), followed by a girls' game, White Team vs. Red Team, and ending with another boys' game, White Team (B) vs. Red Team (B).

The Boys' White Team (A), coached by Colby Morris and Ethan Sickels, includes - Toby Prussman of South Holt; Jordan Showalter and Garrett Hinrichs, both of Craig; Carson Long, Patrick O'Riley, and Nick Christian, all of Nodaway-Holt; and Ryan Crowley and Willy Walker, both of Mound City.

The Boys' Red Team (A), coached by Korey Miles and Jeff Blackford, includes - Gage Rosier of Mound City; Jeff Whittington, Ethan Bragg, and Jacob Linville, all of West Nodaway; Trey Adamson of North Nodaway; Jacob Beck

of Fairfax; Jeff Jones of Rock Port; and Mason Wakely of Nodaway-Holt.

The Boys' White Team (B), coached by Terry Petersen and Matt Shipley, includes - Kevin Dodson of Craig; Jason DeMott, Cody Bix, and Jesse Birkenholz, all of North Nodaway; Chase Chamberlain of Rock Port; Tony Baruth and Zach Klute, both of Tarkio; Dan Montgomery of Mound City; and Marc Rosenbohm of Nodaway-Holt.

The Boys' Red Team (B), coached by Chase Fletchall and Ryan Anderson, includes - Cameron Radley and Tyler Costello, both of South Holt; Damond Wennihan of Rock Port; Spencer Barnes of Fairfax; Michael Brown of Nod-

away-Holt; Derek Hawkins and Garrett Hunkins, both of Tarkio; and Dylan Hagey of West Nodaway.

The Girls' White Team, coached by Regan Crow and Joyce Stiens, includes - Laura Schoonover of Mound City; Kelsey Sly of Fairfax; Meghan Fuller of West Nodaway; Lindsay Peregrine of Tarkio; and Sara Frueh and Kelly Wallace, both of North Nodaway.

The Girls' Red Team, coached by Brooke Crawford and Joe Unternahrer, includes - Chelsea Miller and Kourtney Sly, both of Fairfax; Haley Johnson of Tarkio; Loni Jo Weber and Morgan Burge, both of Mound City; and Alycia Keith of Nodaway-Holt.

## Spring rain causes river to rise

**The Nodaway River-** Was reaching dangerous heights on Thursday, March 11, at this bridge south of Skidmore. After nearly two inches of rain during the night, rivers around the area had raised considerably. The Missouri River saw a six foot rise overnight. The precipitation to date is 3.84 inches already this year, which exceeds the thirty year average to date here in Holt County by 1.35 inches.

## Letter to the Editor

The home delivered meal programs in Missouri need your help. Last fiscal year, Missouri cut \$1.4 million from the home delivered meal programs. Our local programs did not feel that cut for three reasons. Missouri used some federal stimulus money for the home delivered meal programs, the federal funding for home delivered meals increased slightly and the Northwest Missouri Area Agency on Aging used some reserves to help offset the \$1.4 million cut.

So what is the problem now? Although the Governor's budget put the funding back in his budget, the appropriations committee cut the entire amount to home delivered meals. This could potentially mean a trickle-down effect of almost \$80,000 lost in our home delivered meal programs of Northwest Missouri. Although we do not know an exact amount for the senior centers in Mound City and Maitland, it will be several thousand dollars. The big picture result is that we would have to cut services which could make it impossible for some of our clients to continue to live independently. In Northwest Missouri, the average cost of in-home services including homemaker, personal care, home delivered meals and transportation is less than \$15 per day. The average cost in a nursing home is \$138 per day. We all know it doesn't take long for many to use everything they have worked their life for and end up on Medicaid. Please help us by contacting your state senator and representative and urge to put this funding back. Holt County's Missouri Senator is Brad Lager, Room 429, 201 W. Capitol Ave, Jefferson City, MO 65101. Holt County's Representative is Mike Thomson, Room 114-B, 201 W. Capitol Ave, Jefferson City, MO 65101.

Sincerely,

Katheryn Swymeler, Administrator  
Senior Citizens of Holt County/Mound City Nutrition Site

## News from Tiffany Heights

Residents at Tiffany Heights in Mound City enjoyed a seasonal craft during the afternoon on Monday. They made a lucky shamrock with four leaves and decorated them with clover or leprechauns along with a pot or two of gold. Shirley Jackson and Joan Smith assisted with the craft. All the residents enjoyed homemade breads baked by Shirley after the craft.

Esther Haynes played piano during the afternoon on Tuesday. Name Game, one of the residents' favorite activities, was held during the afternoon on Tuesday. They chose the words "Lucky Leprechaun". They were able to make 130 different words using these letters.

Residents enjoyed a spring fling during the afternoon on Wednesday. They learned about the science of seasons. Did you know that the only times of the year when the sun rises due east and sets due west are during the vernal equinox and the autumnal equinox? They also played a few word games about the springtime and then with the letter "A".

Bingo volunteers on Thursday were Shirley Jackson, Jean McCall, Inez VanOrman, Karen Phelps, Gail Twyman, Gordon Robbins and Lucille Stull.

Peanut butter is a great snack and March is National

Peanut Butter Lovers' Month. Residents enjoyed making homemade peanut butter. They tried this on crackers and liked it but would have liked a little sugar in it also. They also tried this with a banana and it made it a little better. Residents then tried a recipe for a banana salad that included chopped nuts and mayonnaise.

What do you think about peanut butter and ice cream? Residents enjoyed this treat as everyone got a taste of peanut butter brownie ice cream. They also learned about growing peanuts and the history of peanut butter alongside the many things that are made from peanuts and the shells.

Larry Brickey and family provided Sunday morning services. Afternoon church was conducted by the Community of Christ Church.

## Remembering

by Eugene Poynter

All the power outages all over the USA this year, due to the heavy snow storms, rain, cold weather and accumulation of ice, brings to mind that while growing up, all those same situations were just part of our regular living.

We grew up using flat narrow wick kerosene lamps of various types and sizes, plus the Aladdin with a more elaborate round wick and cone shaped mantle. We all knew how to trim the wicks, clean the black sooted chimneys and keep it off our hands and maybe Mom's clean table cloth. It was hard to fill a lamp without getting a little kerosene on our hands and probably a spot or so on our clothes, but the odor would soon fade away. It didn't hurt anything and it had kind of a fresh clean smell. Mom always heated a cloth to put around us kids' necks when we had a sore throat or the old fashioned croup, by holding it around the chimney of one of the lamps. We also used some of the kerosene to wash windows and used newspapers to wipe them dry, it worked. It was quite handy for Dad and other smokers to just lean over the top of one of the lamps' chimneys to light their cigarettes.

Until we got bigger, Dad always took care of the Aladdin lamps, filling them and changing out the fragile mantles when needed, and of course, lighting them. What a differ-

ence there was between the two types of lamps. The regular little kerosene types put out a yellowish light, but the Aladdin had a white light and a much larger area of lighting. We kids would use the Aladdin to study by. Probably neither one helped my scholastic ratings, but they sure beat Lincoln having to study by the light of the fireplace. During these power outages, a fireplace was put to use that same way, as well as being used to keep warm.

A lot of stores still keep plenty of both of the above lamps handy for these outages, but most homes have a couple stored, filled and ready for an emergency, at least we do. It always puzzled me as to how the Aladdin could put out so much light with that fragile coned shaped mantle, just don't jar the lamp or touch it with a match while lighting it. I expect China is making them for us now.

We didn't have to worry about losing electricity, because we didn't have any, until 1939. Our wood and coal gravity furnace would have kept going, and so would the individual heating stove and the kitchen cooking stove as long as we kept bringing in more wood. There was no need for a standby power supply like a lot being used today to keep the home fires burning.

What a last minute panic is created when the power does

go off and you don't have one set up and waiting to go to work.

Just think of all the money spent on trying to keep one's homes and surroundings a normal temperature. Flash-lights, candles, generators, kerosene and propane heaters, extra covers and clothes, not to mention doctor bills and medicines, are all part of the cost of trying to keep warm, sleep, eat and stay healthy in a manner that we are used to. I expect with all the push to use alternate fuels and ways to generate electricity, it will not only increase the rates, but increase the number of power failures, due to so many firms and companies that are involved. It took a long time for someone to find a way to make us pay by taxation for the use of wind and sun, but they have now.

Really though, it is bad to be without power, even for a few hours, with the way we have grown into a 100% dependency on it. The ones who grew up without electricity don't like it either.

I wonder if Al Gore could figure out just how much pollution all the standby generators have caused this winter nationwide? I guess it doesn't matter, they had to be used. If you have a standby, go out now and see if you have enough gasoline on hand to be ready for the next outage.

## Mound City Nutrition Site news

Volunteers the week of March 8 were Bill and Donna Golden, Addie Trimmer, Lois Deatz, Linda Elton, Joann Holstine, Yogi Swymeler, Phyllis Ball, Helen Derr, Paul Grant, Mike Voltmer and Em-mie, Richard and Alita Meyer, Carolyn Roberts, Walter Groves, Gailen Robbins, Paul Rother, Anna Derr, Peggy Ann Edwards, Marjorie Field, Greg Biermann, Dennis Nauman, Bob Justus and JC Strobel.

Delivering meals the week of March 22:

**Craig-** Monday- Gene and Bev Miller, Tuesday and

Wednesday- Walt and Pat Groves, Thursday and Friday- Gordon and Sandra Robbins

**Mound City-** Monday and Tuesday- Larry and Carol Brickey, Wednesday- Yogi Swymeler, Thursday and Friday- Christian Fellowship Church

**Oregon-** Monday through Friday- Methodist Church

**Forest City-** Monday- Jeana Scroggins, Tuesday- Ann Derr, Wednesday- Rita Williams and Shirley Derr, Thursday- Kelly Kurtz, Friday- Tamara Markt

The site is providing envelopes for receipts for seniors

participating in the Mound City Foods scholarship program. The site will be collecting them until April 15.

The March product of the month is single serve fruit, vegetables, canned meats, sandwich crackers (cheese or peanut butter) and pudding cups. The drawing will be held on March 31.

The site recycles cell phones, ink cartridges, newspapers, magazines, aluminum cans for cancer and VHS tapes for Meril (Independent Living).

The site also provides a drop box for donations for the food pantry and a box for labels and box tops for the school.

If you can volunteer preparing or serving cinnamon rolls and/or donuts please call Addie Trimmer at 442-5889.

Site Schedule

**March 22-** Exercises 8:30-9:30 a.m., New Concepts Hearing- 12:00 - 1:00 p.m.

**March 24-** Exercises 8:30-9:30 a.m.

**March 26-** Cinnamon rolls and donuts- 8:30 a.m. until sold out, Nominations for Northwest AAA board, Nutrition Council and local boards- 11:30 a.m.

**March 27-** Craft Show- 8:30 a.m. - 1:30 p.m., at the site, proceeds go to the site, booths available by calling 660-442-3324 or 660-683-5499

Site Menu

**Monday, March 22-** Ham, baked beans, harvard beets and peaches

**Tuesday, March 23-** Spaghetti with meat sauce, lettuce salad, juice, garlic bread and banana cream pudding

**Wednesday, March 24-** Beef-n-noodles, mashed potatoes, California blend, hot bread and tropical fruit salad

**Thursday, March 25-** Baked chicken, mashed potatoes and gravy, green beans and mandarin orange salad

**Friday, March 26-** Hamburger on a bun, spinach, cheesy potatoes and baked apples

## New Subscription Price Breakdowns

Prices are broken down by which month you are renewing from. **The ONLY option is to pay until January, 2011.** (Subscription Price + Sales Tax = Total) (tax rate 7.975%)

### In-Area

Atchison, Holt, Andrew, and Nodaway Counties.

If due in March - \$23.20 + \$1.85 = \$25.05

If due in April - \$20.88 + \$1.67 = \$22.55

If due in May - \$18.56 + \$1.48 = \$20.04

If due in June - \$16.24 + \$1.30 = \$17.54

If due in July - \$13.92 + \$1.11 = \$15.03

If due in August - \$11.60 + \$0.93 = \$12.53

After August, 2010, every subscriber  
should be on a January, 2011, due date.

### Out-of-Area

Everywhere else.

If due in March - \$27.00 + \$2.15 = \$29.15

If due in April - \$24.30 + \$1.94 = \$26.24

If due in May - \$21.60 + \$1.72 = \$23.32

If due in June - \$18.90 + \$1.51 = \$20.41

If due in July - \$16.20 + \$1.29 = \$17.49

If due in August - \$13.50 + \$1.08 = \$14.58

After August, 2010, every subscriber  
should be on a January, 2011, due date.

## Cecil L. Stansbury

Cecil L. Stansbury, 85, of Oregon, MO, passed away March 12, 2010, at his Oregon home.

Cecil was born April 22, 1924, in Mound City, MO. He graduated from Oregon High School in 1943, and then joined the U.S. Navy.

On August 2, 1946, he married Arlene Hicks, and they became the parents of five children. Cecil worked as a mechanic, carpenter and worked for the U.S. Postal Service.

Preceding him in death were his wife, Arlene; parents, Linville and Pearl (Stull) Stansbury; and sisters, Virginia Ziegler and Ivy Wilmore.

Survivors include his sons, Kenneth of Wichita, KS, James of Oregon, MO, and Roger of St. Joseph, MO; daughters, Diane Thomas of Atlantic, IA, and Patricia Stinnett of Skidmore, MO; brother, Josiah French Stansbury of Raytown, MO; sister, Katherine Vnuk of Benton, AK; 12 grandchildren; 22 great-grandchildren; and nieces and nephews.

Services were held on Monday, March 15, at the Maple Grove Cemetery in Oregon. Care was entrusted to Chamberlain Funeral Home, Oregon.

## James R. Morris

James R. "Pod" Morris, 75, of St. Joseph, MO, formerly of Oregon, MO, passed away March 12, 2010, at a St. Joseph care center.

Pod was born January 8, 1935, in Holt County, MO. He graduated from New Point High School in 1952, and then attended Northwest Missouri State Teachers College in Maryville, MO. Pod sold insurance, and retired after 18 years as the Holt County Assessor.

On April 6, 1965, he married Joyce Ann Blackford and they became parents of two sons.

Preceding him in death were his parents, Raymon S. and Lavona (Kirk) Morris; brother, Michael; and sister, Patricia Ellison.

Survivors include his wife, Joyce, of their St. Joseph home; sons and daughter-in-law, James Morris and John and Kelly Morris; brother, Gerald of South Greenfield, MO; grandson, Andrew James Morris; 10 nieces and nephews; and great nieces and nephews.

Services were held, Tuesday, March 16, at the Chamberlain Funeral Home in Oregon. Interment was at Maple Grove Cemetery.

Memorials may be directed to the American Heart Association or the American Stroke Association.

## John H. Hall

Late notice

John H. Hall, 84, of Bullhead City, AZ, formerly of Mound City, MO, passed away March 8, 2010. Services are pending at the Chamberlain Funeral Home in Mound City.

## Eugene D. Hahn

Eugene D. Hahn, 94, St. Joseph, MO, formerly of Forest City, MO, passed away March 9, 2010, at a St. Joseph care center.

Gene was born May 3, 1915, in Forest City, MO, and graduated from Forest City High School in 1934.

After graduation, he went to Kansas City, MO, where he was employed for a few years by a clothing manufacturer. He went from there to Miami, OK, San Francisco, CA, then back to Kansas City, where he retired in 1993.

On December 30, 1941, he enlisted in the U.S. Navy and was discharged October 22, 1945, in St. Louis, MO. On the point system, he earned the Asiatic-Pacific Campaign medal, World War II Victory Medal, American Area Campaign Medal, and the World War II Good Conduct Medal.

On June 30, 1959, Gene was married to Maxine E. Daffron. She passed away in 1998. Gene was also preceded in death by his parents, Jacob I. and Myrtle G. (Cain) Hahn; brother, Paul; and sisters, Alberta Flynn, Sydney Hahn, Lois Leverton and Pat Bergsten.

Eugene's survivors include his sister, Virginia Griffin of Whitehall, MT; and numerous nieces.

Services were held Saturday, March 13, at 2:00 p.m. at the Chamberlain Funeral Home in Oregon, MO. Burial was held at the Maple Grove Cemetery.

Memorials may be directed to Focus on the Family, Colorado Springs, CO.

## James R. Knaebel

James R. Knaebel, 53, of Oregon, MO, passed away Sunday, March 14, 2010, at his Oregon home.

James was born on January 2, 1957, in Cole County, MO. On May 13, 2005, he was married to Gail (Matzen) Sunderman in Nebraska City, NE.

He was preceded in death by his parents, Edward and Shirley (Dees) Knaebel; and a brother, Chuck Knaebel.

Survivors include his wife, Gail, of their Oregon home; son and daughter, John "Jack" and Ashley Knaebel, both of Springfield, MO; stepsons, Austin and Brooks Knaebel, both of Oregon; stepdaughters, Christian Acamo of Oregon, and Cheri Ghrke of Bellevue, NE; brothers, Ed Knaebel of Jefferson City, MO, and Robbie Knaebel of Russellville, MO; sister, Patty Kaegy of Greenville, IL; granddaughter, Kyla Sherwood; and three stepgrandchildren, Ebbin, Brayln and Payton Ghrke.

James was a member of the International Brotherhood of Boilermakers, Local #83. He enjoyed playing golf in his spare time.

Memorial services will be held on Friday, March 19, at 2:00 p.m. at the Chamberlain Funeral Home in Oregon, MO.

## Pack 71 to host Blue and Gold ceremony

Cub Scout Pack 71 will be hosting a Blue and Gold Ceremony on March 20, 2010, from 2:00 p.m. to 4:00 p.m. at The Klub in Mound City, MO.

Following the ceremony, the scouts will be having the Pinewood Derby race. Awards will be handed out.

# Motivational speaker to speak at South Holt Library

Relay For Life of Holt County is hosting a very inspiring motivational speaker on April 5, 2010, at the South Holt Library at 7:00 p.m.

Tina Herold, the speaker for the event, was diagnosed with breast cancer at the age of 34. She had no family history of cancer and was free of risk factors generally associated with cancer. The diagnosis came while her family was on a temporary job assignment in Washington state – thousands of miles away from her family and friends support network.

Tina underwent a lumpectomy in 2006 and completed 8 rounds of chemotherapy and radiation treatment. One of her greatest obstacles of treatment was the one many women in her situation share – losing their hair because of chemotherapy. Knowing her goal was to see her three and five year old daughters go to kindergarten, graduate from college and start their own families, Tina fought back her fears and underwent the treatments.

During her treatment and recovery, Tina not only came to terms with a cancer diagnosis, but found strength to fight back and make something good out of all she'd been through. A silver lining to Tina's treatment was that her wig always looked awesome, bringing her more compliments than she'd ever had with her real hair. That's when Tina decided she didn't want to waste life's precious moments fussing with her hair and that she'd continue wearing her wig after her treatment

## Mound City Kiwanis Club

The Mound City Kiwanis Club met at the United Methodist Church on Wednesday, March 10, 2010, with 13 members and 11 guests present. Guests included Alan Schmurr, Big Lake State Park; David Showalter, River of Hope Church, Mound City; and Mound City Football Coach Messer with Seniors Dan Montgomery, Gage Rosier, Ryan Crowley, Willy Walker, Tyler Wilcoxson, Nathan Brickey and J.D. Forehand.

The team and coach presented the program for the day.

Also present was Tommye Quilty, NW Cellular, who was introduced and welcomed as a new Kiwanis member.

The Kiwanis grossed \$600 on the March 6 Pancake Feed fundraiser for the Nutrition Building.

A sign up sheet was passed around for the Country Cabin outing/meal in Hiawatha, KS, on March 31.

A tractor pull will be held July 9, sponsored by the Mound City Rural Fire Department.

The Trap Shoot fundraiser will be held June 12.

BUGS awards for the third quarter at the Mound City Elementary School included Will Arbuckle, Maggie Baker, Julius Berney, Gracie Caton, Emma Derr, Josiah Foust, Aaron Grant, Justyn Hall, Donovan Kemerling, Dylan Marrs, Victoria Nauman, Stuti Patel, Paige Quilty, Hannah Wedlock, Noah Young, Emma Gibson, Hannah Brown and Sylvia Foust.

was complete.

Upon returning to Kansas City, Tina began to meet other young women fighting cancer. Laura Plunkett was one of these young ladies; she was a 2 year survivor at the time. Tina & Laura became fast friends and began working together on Laura's cancer awareness campaign "Pass it On".

In 2008, Laura's cancer had returned and spread and the "wig expert" Tina helped Laura find a new wig. The experience was depressing just as it had been for Tina in Washington, and at that moment Tina decided she could make a difference.

Tina would open her own wig boutique called Wiggged Out to help women who were facing hair loss. Her shop would be different though, because Tina, having faced the same mountain her clients face, could counsel and encourage through their journey.

Wiggged Out opened in October of 2008, two months before Laura passed. To honor Laura, Tina is starting "Laura's Locks" a non-profit to raise money to help under-privileged clients look and feel their best during their battle.

Having benefited from medicines funded by the American Cancer Society (ACI), Tina searched for ways to "give back". After participating in her first Relay for Life (RFL) in 2007, Tina was hooked. She started a team in 2008 and in 2009 she was on the Leawood/Overland Park RFL organizing committee and Wiggged Out was a sponsor.

She has met hundreds of wonderful people joining the fight against all types of cancers and Tina's selflessness was rewarded by being named a 2010 American Cancer Society Hero of Hope. In this role, Tina is able to broaden her outreach and speak at ACI events with the hope of inspiring people to take charge of their health and to fight their cancers with everything they've got!

Tina and Wiggged Out have been profiled in the Kansas City Star and Fox4 News of Kansas City and she has spoke at numerous events from motorcycle rallies to businesses to high schools.

Tina was awarded the 2009 "Jana Peter's Life is Good" award from the Young Survivor's Coalition for her inspiring rise from the ashes and her generosity of her time and talent to reach young women fighting cancer. In 2010, Tina told her story to the Kansas Senate in hearings on baseline mammograms. Tina's story along with other survivors' testimony helped the Kansas Senate to vote to support baseline mammograms at 40 instead of 50 years old.

Tina's story can inspire people to not give up and to know, without a doubt, that everyone can make a difference. One cannot control what happens in life, but one CAN control how one responds to the challenges faced.

Participation in the American Cancer Society's Relay for Life of Holt County can make a positive difference.

# SOS holds meeting

The Share on Saturday (SOS) group of the United Methodist Church met for their monthly meeting Saturday, March 6, at 9:30 a.m. with 15 members present.

Church camp was discussed. There are possibly 25 children and youth who will be attending. Approximately \$1,250 is needed to send them, with \$1,000 being provided by the SOS group. A baked potato bar is being planned by Carolyn Hall for Sunday, March 21, following church. Free will donations will be given toward the remaining camp funds needed.

The annual Good Friday Bake Sale is scheduled for Friday, April 2. Marie Wheeler will be in charge of the event. The bake sale will begin at 8:00 a.m. and will continue until all of the baked goods are gone.

A Mother's Day Brunch is being planned for Saturday, May 1, at the church. Leigh Helfers is the hostess for the brunch.

The next meeting for SOS is Saturday, March 27, at 9:30 a.m. The annual Easter egg hunt will be that afternoon at 2:00 p.m.

**I would appreciate your vote in the April election for South Ward Alderman**  
**James H. Krueger**

## Wrights celebrate 40th anniversary

Larry and Maria Wright, Craig, MO, will celebrate their 40th wedding anniversary on March 20, 2010.

The couple was married on that day in 1970 at the Oregon Nazarene Church in Oregon, MO.

Larry and Maria lived at Big Lake, MO, for the first 13 years of their marriage, before moving to their present country home near Craig, MO.

Larry and Maria have three children. Their son, Mark Wright, has been serving in the Air Force for the past 19 years, is in Papillion,

NE, with his wife, Michelle, and their children, Justin, Geoff, Courtney, Hannah, Aaron and Matthew. Dana Zembles and her husband, Chris, live in Mound City, MO, with their sons Lane and Keaton. Teri Roberts and her husband, Mike, live in Maryville, MO, with their two children Zeb and Allison Maria.

Larry and Maria's children hosted an anniversary dinner to honor the couple on Sunday, March 14, at the Black Iron Grill in Rock Port, MO.

## Sammon and Keiffer to wed

Danielle Nicole Sammon and Chad William Keiffer will be married at a private ceremony on April 3, 2010.

Family and friends are invited to attend the couple's wedding reception on Saturday, April 3, 2010, at the Sportsman's Lodge in Bigelow, MO, at 7:30 p.m.

Danielle Nicole Sammon is the daughter of Patrick and Cindy Sammon of St.

Joseph, MO.

Danielle is a Logistics Coordinator/Accounts Receivable employee of Golden Triangle Energy in Craig, MO. She also sells life and health insurance for Richard Miles' American Family Insurance Agency.

Chad William Keiffer is the son of Billy and Debi Keiffer of Mound City, MO.

Chad is currently a truck driver employed by Holt County Road and Bridge.

## Tuesday Club meets

The March 9, 2010, meeting of the Tuesday Club was held at the home of Sheri Meadows with 16 members and one guest answering the roll call of My Favorite Cheese. Members present were: Leisa Biermann, Linda Creed, Patty Davis, Sandra Fuhrman, Barb Heitman, Susan Laukemper, Judith Long, Judy McIntire, Jane Meadows, Sheri Meadows, Kasey Miles, Jeanne Moore, Phyllis Parker, Brenda Ryan, Kay Sitherwood, Linda Creed, and guest Kristine Gibson.

President Brenda Ryan conducted the business meeting.

Judy McIntire presented an interesting program on the many different cheeses we eat, their origins and the history of cheese making. Cheeses originated with nomadic tribes transporting milk in bags made of skins. The galloping motion of the animals formed the curds

as the milk fermented in the bags. Nomads drank the whey and ate the nourishing curds. Romans developed cheese making as we know it today with the aging, storing and ripening techniques, and in 300 AD it was a regular export.

Members also learned the type of milk used to produce certain cheeses. Mozzarella is made from the milk of water buffalo, Roquefort is made from the milk of ewes and feta is made of goat milk.

Americans eat an average of 31 pounds each year, with mozzarella topping the chart. One other interesting piece of information was that the phrase "the Big Cheese" originated when a 1,235-pound wheel of cheese was delivered to President Thomas Jefferson, the Big Cheese in the United States!

Delicious refreshments and a social hour followed. The next meeting will be March 23, at the home of Jane Meadows.

## Holt County Head Start menu

*All meals served with skim milk.*

**Monday, March 22**  
**Breakfast-** Cereal, fruit or 100% juice

## Mary Lou Rockwell to celebrate 80th birthday

Mary Lou (Patton) Rockwell, Mound City, MO, will celebrate her 80th birthday on March 28, 2010, with a reception hosted by her family at the Mound City Nutrition Site from 2:00 p.m. to 4:00 p.m. Family and friends are invited to help her celebrate. The family requests no gifts, please.

Cards may be sent to the honoree at 412 Nebraska St., Mound City, MO, 64470.

Mary was born April 4, 1930, to Hugh A. and Helen M. (Diggs) Patton in rural Holt County, MO. She has two daughters: Diana (Robert) Elliott of Forest City, MO, and Patsy (Roger) Smith of Mound City, MO. Mary has six grandchildren, nine great-grandchildren and numerous step children, step grandchildren and step-great-grandchildren.

## Amish Bread

By: Julia Gilland

1 pkg. dry yeast  
1/2 cup warm water  
1 3/4 cups scalded milk  
1 T. sugar  
2 tsp. salt  
2 T. cooking oil  
5-6 cups flour

Dissolve yeast in warm water. Combine sugar, salt and oil and stir in yeast. Mix well. Add flour gradually, knead and cover. Let rise until it doubles in bulk. Punch down. Let rise again. Shape into two loaves. Punch with a fork several times to release air. Place in bread pan. Let rise until doubled. Bread is ready to bake when a thumb does not spring back. Bake 25-30 minutes at 350 degrees.

**Dental Screening**  
**A Dental screening-** Was held at Mound City on Tuesday, March 9. Registered Dental Hygienist, Ms. Bertie Cronbaugh (pictured above, left), of Northwest Health Services, is shown checking Kendey Eaton's teeth during the screenings. School nurse, Susan Lentz, organized and helped with the screenings, passing out new toothbrushes, toothpaste and floss to each student.

**Baked Potato Dinner**

**When: Sunday, March 21st**  
**Where: Mound City**  
**United Methodist Church**  
**Time:**  
**11:30 a.m. - 12:30 p.m.**

Come and enjoy baked potatoes with your choice of soup, salad, and dessert!

\*\*\*\*\***Freewill Offering**\*\*\*\*\*

*All proceeds go towards sending area youth to Church Camp this summer*

## Omega Club news

The Omega Club met Tuesday, March 9, at Evans Circle Lounge, with Eva Johnson serving as hostess.

Helen Derr, program leader, introduced Ann Schlueter, Director of Strategic Planning, Community Hospital-Fairfax, who gave an informative program about the progress of the construction of the new hospital. She also reviewed the many services provided by the hospital and invited members to attend the "Ask a Doc" forum on March 19.

President Delores Smith opened the business meeting by leading the group in the Pledge of Allegiance. She gave a patriotic reading about Ed Freeman, who received the Medal of Honor for his service in Vietnam.

Eleven members answered roll call with "home remedies". Mary Lee Privett thanked the club for the February birthday party at the Senior Center.

The club will sponsor a Craig High School student at Sophomore Pilgrimage.

Plans were made for the Tiffany Heights March birthday party on March 18. Verna Young is chairman of the event.

Those present were Pat Barnes, Janet Burnside, Helen Derr, Linda Elton, Eva Johnson, Mary Lee Privett, Susan Rippen, Delores Smith, Iva VanDeventer, Marge Yocum and Verna Young.

## Mound City Community Blood Drive

Last year, 28,000 individuals in this area needed a blood transfusion. This year, the local needs for blood are expected to rise. Community Blood Center, the provider of blood services to local hospitals, will be conducting a blood drive at the Mound City R-2 School cafeteria to help the local hospital patients in our area that depend on life saving blood donations.

Individuals in Mound City can help meet the local needs by donating blood at the Community Blood Center blood drive on Thursday, April 1, from 2:30 p.m. to 7:00 p.m. in the Mound City R-2 School cafeteria, 708 Nebraska Street. To make an appointment online, go to [www.esavealifenow.org](http://www.esavealifenow.org) and use Sponsor Code [moundcitycomm1](http://moundcitycomm1). You may also contact Karlene Harrison at 660-442-5429.

Just one donation can help as many as two local hospital patients. Community Blood Center must collect at least 580 pints of blood every day to meet the needs of the area.

## Squaw Creek Refuge office visitor contact station now open on weekends

Squaw Creek National Wildlife Refuge near Mound City, MO, will open the office visitor contact station on weekends for the spring bird migration from 10 a.m. to 4 p.m. through Sunday, May 2, 2010. Volunteers will staff the information desk providing refuge updates on bird numbers and current activities scheduled on the Squaw Creek Refuge. Friends of Squaw Creek sales items, such as sweatshirts, tee shirts, caps, bird books, post cards, and more will be available for purchase in the bookstore.

Waterfowl activity is delayed for the beginning of spring migration on the refuge at this time. Refuge wetlands are slowly recovering from the harsh winter weather this season. Duck numbers have been marginal on the refuge with just over a thou-

sand birds observed. An estimate of 175,000 snow geese arrived on Friday, March 5, then moved on by Monday, March 8. Geese have been in the area. However, due to the amount of ice in marsh areas, geese are not in great numbers over long periods. The resident nesting bald eagles have been observed steadfast on the nest. This activity hopefully indicates the birds are incubating eggs that will produce young eaglets by April. Refuge trails and the auto tour are open from sunrise to sunset.

Please call (660) 442-3187 to obtain further information. Squaw Creek Refuge is located five miles south of Mound City and 30 miles north of St. Joseph, MO. To reach the refuge, take I-29 to exit 79, then two and ½ miles west on Highway 159.

## NEED A DOCTOR AFTER 5:00?

St. Francis Family Health Care offers Extended Hours

Mound City

**NEWS**

Thursday, March 18, 2010 • Page 5

# This Week's History

From the *Mound City News* archives

## 50 Years Ago - 1960

- The Mound City City Council voted to designate that cars parallel park along both sides of State Street in order to provide for a wider street and improved appearance. The council also rejected all five bids for the construction of a new park and swimming pool because they were all in excess of the \$81,000 bond.

- In a grade school (7th-8th) basketball tourney in Forbes, the Mound City boys edged past Savannah 40-39 in overtime, beat Fairfax 21-18, but lost to New Point 42-26. Players included: Dickie Broker, Tommy Coates, Gregory White, Roger Ideker, Steve Thompson, Chris Young, Stephen Van Vickie, Gary Gillenwater, Danny Kunkel and Ricky Moorman. The team finished 9-2 for the season.

- In girls' grade school (7th-8th) action, Mound City defeated Savannah 26-18 and Bellevue 24-18, but fell to Maitland 17-28 and New Point 20-22. Girls participating were Jane Gillis, Nancy McDaniels, Rose Bartlett, Sharon Davis, Joy Hicks, Kay Jean Hollenbeck, Sue Doan, Linda Smith and Sandra Martin. The girls' season record was 3-4.

- A story remarked on how personal the census taker was getting, as a sample of the population was asked whether they owned a washing machine, clothes dryer, food freezer, air conditioner and how many cars they had in their family garage.

## 25 Years Ago - 1985

- Regina Justus, Mound City, and Bridgit Derr, Oregon, were selected to represent their schools at the Hugh O'Brian Youth Foundation Seminar.

- Work was beginning on a new Camp Rulo building. It will replace the one destroyed by fire in August (1984) and will be placed two feet above any recorded flood level.

- Several Eagle Scouts and parents were honored at a district supper. Among those were Hans Humphrey-Mound City; Virgil Ebrecht-Skidmore; Alex Fink-Oregon; and eight others from Maryville.

- Mound City speech teacher, Mrs. Nida Messick, had Charlie Mollus do a demonstration of stuffing and mounting for her class. The students then presented the following: Penni Dougherty: "Unforgettable Fabric Frames", Shelly Proctor: "On a Soree with Pot Pourri", Kim Duncan: "Picture Perfect Portraits", Michelle Hodge: "Woks are Ah-So Easy", Joni Showalter: "Joni's Handy Dandy Homemade Candy" and Lisa Stone: "Sugar and Spice and Everything Nice".

- Heidi McIntire, Molly Heitman, Michelle Wilson and Brian Ungles won the fifth grade spelling bee.

## 10 Years Ago - 2000

- A 16 year-old girl and a 19 year-old man were taken into custody in Mound City after attempting to sell jeweler Greg Wheeler a diamond ring appraised at more than \$100,000.

- In addition to a controlled 600 acre prairie section burn at Squaw Creek Wildlife, another fire was accidentally started on the northwest edge of the refuge. The fire burned nearly 300 acres.

- Dexter and Melinda Prussman of B&B Meats in Oregon won the state championship for bone-in cured ham at the Missouri Association of Meat Processors.

- "Rock Around the Clock", a Mound City elementary musical, debuted at the State Theater.

- The Mound City boys' basketball team won the 275 Conference and the District 32 Championship.

- Bob Moore and Junior Griffith, Mound City, were honored as 50-year masons of the Masonic Lodge #294 at a supper at the TJ Hall Building in Oregon.

# THANKS TO OUR AG INDUSTRY...

## National Ag Week

March 14-20, 2010

### National Ag Day March 20

Saturday, March 20, 2010, marks the first day of spring. It falls during National Ag Week, March 14-20, 2010, a time when producers, agricultural associations, corporations, universities, government agencies and countless others across America gather to recognize and celebrate the abundance provided by American agriculture. As the world population soars, there is even greater de-

mand for the food, fiber and renewable resources produced in the United States.

The National Ag Day program believes that every American should:

- Understand how food, fiber and renewable resource products are produced.
- Value the essential role of agriculture in maintaining a strong economy.
- Appreciate the role agriculture plays in providing safe, abundant and affordable products.
- Acknowledge and consider career opportunities in the agriculture, food, fiber and renewable resource industries.

Agriculture provides almost everything we eat, use and wear on a daily basis, and is increasingly contributing to fuel and other bio-products.

Each year, members of the agricultural industry gather together to promote American agriculture. This effort helps educate millions of consumers each year. By far, the most effective part of this program is the role everyone plays in helping spread the word. A few generations ago, most Americans were directly involved in, or had relatives or friends involved in, agricultural-related endeavors. Today, that is no longer the case. That is why it is so important that everyone joins together at the community level - the voices, in concert, become a shout that carries the message a great deal further than anyone can do alone!

### Agriculture fact sheet

#### Profile of the Farmer

More than three million people farm or ranch in the United States. Individuals, family partnerships or family corporations operate almost 99 percent of U.S. farms. Over 22 million people are employed in farm or farm-related jobs, including production agriculture, farm inputs, processing and marketing, and wholesale and retail sales.

According to the 2002 Census of Agriculture, 50 percent of the farmers are 55 years of age or older, up only three percent from 1997. Average age of the principal operator is 55.3.

Forty-one percent of U.S. total land area is farmland (938.28 million acres). In 1900, the average farm size was 147 acres, compared to 441 acres today.

The top five agricultural commodities are cattle and calves, dairy products, broilers, corn and soybeans. U.S. farmers produce 46% of the world's soybeans, 41% of the world's corn, 20.5% of the world's cotton and 13% of the world's wheat.

Farmers and ranchers are independent business people who provide for their families by growing and producing food and fiber. They use modern production techniques to increase the quality and quantity of the food they produce. In the 1960s, one farmer supplied food for 25.8 persons in the U.S. and abroad. Today, one farmer supplies food for 144 people in the U.S. and abroad.

#### The Changing Face of Agriculture

Farmers and ranchers are producing meat lower in fat and cholesterol. This has resulted in retail cuts that are 15 percent leaner, giving consumers better value for their dollar. For example, a pork tenderloin now has only one more gram of fat than a skinless chicken breast, one of the true fat "lightweights". Also, much leaner beef cuts are being produced than 20 years ago, resulting in 27 percent less fat reaching the retail case than in 1985.

Research and advancements in biotechnology are now in the marketplace with tastier fruits and vegetables that stay fresh longer and are not damaged by insects.

A new technique called "precision farming" boosts crop yields and reduces waste by using satellite maps and computers to match seed, fertilizer and crop protection applications to local soil conditions.

Farm equipment has evolved dramatically from the team of horses used in the early 1900s. Today's four-wheel drive tractors have the power of 40-300 horses. This makes for a large capital investment, as farmers pay anywhere from \$97,000 for an average 160 horsepower tractor to \$170,000 for a four-wheel drive model.

As the amount of mechanization and horsepower in farm machinery has increased, the time needed to complete tasks has decreased. Combines, huge machines used to harvest grains such as corn, soybeans and wheat, have dramatically changed agriculture. In the 1930s, before the machines were available, a farmer could harvest an average of 100 bushels of corn by hand in a nine-hour day. Today's combines can harvest 900 bushels of corn per hour or 100 bushels of corn in under seven minutes!

The efficiency of U.S. farmers benefits the United States consumer in the pocketbook. Americans spend less on food than any other developed nation in the world. On average in 2004, Americans spent only 2% of their disposable income on meat and poultry, compared to 4.1 percent in 1970.

## Why celebrate Ag Day?

Americans need to understand the value of agriculture in their daily lives. Here are just some of the key reasons why it's important to recognize and celebrate Ag Day each year:

- Increased knowledge of agriculture and nutrition allows individuals to make informed personal choices about diet and health.
- Informed citizens will be able to participate in establishing the policies that will support a competitive agricultural industry in this country and abroad.
- Employment opportuni-

ties exist across the board in agriculture. Career choices include: farm production; agribusiness management and marketing; agricultural research and engineering; food science; processing and retailing; banking; education; landscape architecture; urban planning; energy; and other fields.

- Beginning in kindergarten and continuing through 12th grade, all students should receive some systematic instruction about agriculture.
- Agriculture is too im-

portant a topic to be taught only to the small percentage of students considering careers in agriculture and pursuing vocational agricultural studies.

- Agricultural literacy includes an understanding of agriculture's history and current economic, social and environmental significance to all Americans. This understanding includes some knowledge of food, fiber and renewable resource production, processing and domestic and international marketing.

# THANKS TO OUR AG INDUSTRY... National Ag Week

## March 14-20, 2010

# Agriculture plays a vital role in Americans' daily lives

National Ag Week is being celebrated March 14-20, 2010, all across the U.S., and Saturday, March 20, has been designated as National Ag Day.

The following are some interesting statistics about today's agriculture industry:

- The top five agriculture products in the U.S. are cattle and calves, dairy products, broilers, corn and soybeans.

- The U.S. produces 46% of the world's soybeans, 41% of the world's corn, 20% of the world's cotton and 13% of the world's wheat.

- The U.S. farmer produces enough food and fiber for more than 150 people. This number was 19 people in 1940, 46 people in 1960 and 115 people in 1980.

- About \$.20 of every consumer dollar spent on food actually goes to the farmer. The other \$.80 is spent on processing, packaging, marketing, transportation, distribution and retail costs.

- One acre of wheat will yield about 35 bushels and will produce about 1,960 loaves of bread, or about 56 loaves of bread/bushels of wheat.

- If a farmer is paid \$6/ bushel for wheat from the farm, the wheat cost in a loaf of bread is only about \$.12/ loaf (estimated retail value is about \$2.99/loaf).

- The following is the farmer's share of some other common food products (estimated retail value): bacon \$.44/lb. (\$2.99/lb.); sirloin steak \$.80/lb. (\$5.99/lb.); eggs \$.81/dozen (\$2.69/dozen); breakfast cereal \$.09/ box (\$4.49/box); and potatoes \$.69/10 lbs. (\$3.99/10 lbs.).

- The U.S. Agriculture Industry employs more than 22 million Americans to produce, process, sell and trade the nation's food and fiber. This represents approximately 16-17% of the total U.S. workforce.

- The soil erosion rate on U.S. cropland has declined by over 40% since 1982. Today, conservation tillage methods are used on over 100 million acres of the total of 281 million crop acres in the U.S.

- Fresh beef sold at the retail meat counter in the U.S. has 27% less fat content than 20 years ago. Today, the average pork tenderloin only has about one gram more fat than a skinless chicken breast, which is considered among the leanest of meat products.

- One dairy cow produces enough milk each day for seven gal. of fluid milk, 2.9 lbs. of butter, and six lbs. of cheese. The dairy cow's average daily consumption is 35 gal. of water, 35 lbs. of hay and silage, and 20 lbs. of grain and concentrates.

- Today's modern combines harvest over 900 bushels of corn/hour, or 100

bushels every seven minutes. By comparison, in the 1930s - before modernized harvesting equipment - a farmer would harvest about 100 bushels of corn in a nine-hour day.

Celebrate and enjoy National Ag Week. Don't forget to recognize the farmers for all of their hard work and dedication in providing top quality food for everyone.

 John Ingram ~ Jeff Ingram

## Check grain bins for problems

High moisture grain placed in bin storage last fall should be checked carefully. Several growers have reported their grain was going out of condition and problems were developing.

Look for crusting of the grain surface. Also, condensation on the bin roof indicates problems. Run the bin fan and check for odor. All are signs that one should look further.

If you think there is a problem, unload the grain from the bin to see if a problem exists. Grain removed will feed from the top of the bin downward and will empty first. Often, the problem will be in the center of the bin and will be removed as one empties the bin. The grain that is good can be replaced back into the bin.

If the problem cannot be handled by removing a couple loads of grain, then the wet grain is starting to go out of condition. Use the fan to push air through the grain mass. Add heat if your bin fan has that option. Once you start moving the drying front through the grain, continue to run the fan and do not stop. With the current humidity and temperature, this will

mean weeks not days.

Another option is to move part of the grain to another bin. As the height of the grain mass is lessened, the time for it to dry or for the drying front to move through the grain mass is lessened.

If there is a bigger problem, you need to market the grain. You may have difficulty finding a buyer for wet grain. Buyers often have the same problem of handling wet grain so they do not have the proper equipment. You may search for buyers outside of the local area.

For more information, contact Wayne Flanary at 660-446-3724 or Heather Benedict at 660-425-6434, Regional Agronomists, or Jim Crawford, Natural Resource

Engineer, at 660-744-6231, University of Missouri Extension.

Equal opportunity is and shall be provided to all participants in Extension programs and activities, and for all employees and applicants for employment on the basis of their demonstrated ability and competence without discrimination on the basis of their race, color, religion, sex, sexual orientation, national origin, age, disability, or status as a Vietnam-era veteran. This policy shall not be interpreted in such a manner as to violate the legal rights of religious organizations or military organizations associated with the armed forces of the United States of America.

## Fun facts: flora, fauna and food for thought

### It's The Bee's Knees

A hive of bees flies over 55,000 miles to bring one pound of honey. A honey bee can fly 15 miles per hour.

Honey bees must tap two million flowers to make one pound of honey. Each worker honey bee makes 1/12th teaspoon of honey in its lifetime.

Honey bees visit 50-100 flowers during one honey collecting trip.

Bees have been producing honey from flowering plants for at least 10 million years, and maybe even as long as 20 million years!

Flowers and other blossoming plants have nectarines that produce sugary nectar. Worker bees suck up the nectar and water and store it in a special honey stomach. When the stomach is full, the bee returns to the hive and puts the nectar in an empty honeycomb. Natural chemicals from the bee's head glands and the evaporation of the water from the nectar change the nectar into honey.

In one day, a honey bee can

fly 12 miles and pollinate up to 10,000 flowers.

Honeybee workers must visit two million flowers to make one pound of honey.

### Fabulous Forests

An acre of trees can remove about 13 tons of dust and gases every year from the surrounding environment.

Almost a third of the world's total land area is covered by forests.

Some tissue-making machines can produce as many as 6,000 feet of toilet tissue every minute out of trees.

About 1.5 million tons of ground cocoa beans from the tropical tree are used each year to make chocolate and cocoa products. That's greater than the weight of more than 300,000 elephants!

Every year in the United States, each person uses the equivalent of one tree, 100 feet tall and 16 inches in diameter, to fulfill their wood and paper needs.

Thirty to 40 gallons of sugar maple sap must be boiled down to make just one gallon of maple syrup.

Many farmers grow more than just grains, vegetables and livestock. Some farmers grow trees. This is called a woodlot. A woodlot is not an original forest because the timber has been cut down before. Sometimes the trees in a woodlot have been cut down four, five, or even six times. After the trees have been cut down, the farmer lets them grow up again until they are big enough to be harvested once more.

Not only is the wood on woodlots good to sell to timber companies to make paper, etc., but the timber can also be useful on the farm. The farmer can cut down the timber and use it to build fences, barns, or other buildings. Some farmers grow specialized woodlots that are used for a specific purpose. A woodlot may be used to harvest maple syrup or as a Christmas tree farm.

### Udderly Amazing

In a year's time, a dairy cow produces 1,500 gallons or 6,000 quarts of milk. A Jersey cow will give as much as three to four gallons or around 16

quarts of milk each day.

Dairy cows provide us with milk and milk by-products like cheese, butter, and ice cream. In addition, milk is also used to manufacture glue, paint and plastics.

Straight from the cow, the temperature of cow's milk is about 97 degrees Fahrenheit.

The average U.S. dairy cow produces 22.5 quarts of milk each day. That's about 16,000 glasses of milk per year - enough for about 40 people. One cow can give 200,000 glasses of milk in a lifetime.

It takes approximately 1.4 gallons of milk to make one gallon of ice cream.

Cheese was first made over 4,000 years ago in Asia.

A cow has four stomachs. They are: the rumen, where the food is first stored; the reticulum, where food that has been more thoroughly chewed is stored once the cow has chewed the cud and has swallowed it; the omasum, where extra water is squeezed out; and finally, the food goes to the abomasum. Some of the digested food is then stored in the cow's udder where it is made into milk.

Cows are ruminants or cud-chewing animals that eat hay, corn, soybeans, grass, wheat, and ensilage. Each cow eats 20 to 25 pounds of grain, 40 to 60 pounds of ensilage, 30 pounds of hay and drinks about 15 to 25 gallons of water a day.

Cows are sedentary animals that spend up to eight hours a day chewing the cud while standing still or lying down to rest after grazing. When going to be milked, a certain cow in an established herd always leads the others with the weaker and older cattle trailing behind the group.

A typical, full grown Holstein cow weighs about 1,400 pounds and produces 60 pounds of milk per day.

One day's production is 2.6 pounds of butter or seven gallons of milk or six pounds of cheese.

A dairy cow consumes 35 gallons of water, 20 pounds of grain and concentrated feed and 35 pounds of hay or silage (a mixture of corn and grass) in just one day.

It usually takes about 20 minutes for a cow to be milked. On average, a cow is milked two to three times a day.

Hamburger meat from a single steer will make about 720 quarter pound hamburger patties. That's enough for a family of four to enjoy hamburgers each day for nearly six months.

### New Ways to Help the Planet

Farmers and ranchers provide food and habitat for 75% of the nation's wildlife.

Plant and animal biotechnology have resulted in new antibodies for immunizations. Agriculture has also contributed to research that has helped develop surgical techniques and pharmaceuticals that help save lives.

Ethanol and new bio-diesel fuels made from corn, soybeans and other grains are beneficial to the environment and help contribute to energy independence for the U.S.

### Agriculture is Part of Your Life

Products we use in our everyday lives come from plant and animal by-products produced by America's farmers and ranchers: Health care - Pharmaceuticals, surgical sutures, ointments, latex gloves, x-ray film, gelatin for capsules and heart valves; Construction - Lumber, paints, brushes, tar paper, dry wall and tool handles; Transportation - Fuel, lubricants, antifreeze, tires and upholstery; Manufacturing - Adhesives, solvents and detergents; Printing - Paper, ink and film; Personal Care Products - Shampoo, cosmetics, lotions, fingernail polish and toothpaste; Education - Crayons, textbooks, chalk, desks, pencils and paper; Sports - Uniforms, baseball bats, leather equipment and shoes.

### 5 Servings of Fruits & Vegetables A Day

Onions contain a mild antibiotic that fights infections, soothes burns, tames bee stings and relieves the itch of athlete's foot.

Archeologists have found evidence that humans have enjoyed eating apples since 6500 B.C. Each of us eats more than 19 pounds of apples annually.

Grapes are one of the oldest cultivated fruits. They have been around for more than 8,000 years.

Americans eat about 125 pounds of potatoes a year, about half from fresh potatoes and half in processed foods.

### Don't Be Sheepish

There are 914 different breeds of sheep in the world. There are 35 breeds in the U.S.

Wool is a natural fiber grown from sheep.

The following are steps in

March 14-20, 2010

## Fun facts: flora, fauna and food for thought

*Continued from previous page*

making some of your favorite clothes:

Sheep are sheared in the spring. Their wool is removed in one piece called a fleece. Next, the fleece is washed in big tubs to remove dirt, grease and grass. This process is called scouring. The clean, dry wool is then carded. Carding means to comb the wool to straighten the fibers. The next process is called spinning. This is when the wool will be spun into yarn. Finally, the yarn is knitted or woven into fabric.

### Snack Time

It takes a combine nine seconds to harvest enough wheat to make 70 loaves of bread.

Americans consume 1.12 billion pounds of popcorn a year.

Soybean oil is the most widely used edible oil in the United States. You can find it in mayonnaise, salad dressing, processed cheese products, dessert frostings and much more.

Peanuts are not actually nuts. Peanuts, like soybeans, are members of the legume family.

There are 340 million M&M's produced daily.

### You May Find this "Corny"

One bushel of corn will sweeten more than 400 cans of pop.

There are about 600 kernels on each ear of corn.

Farmers grow corn on every continent except Antarctica.

Each tassel on a corn plant releases as many as 5 million grains of pollen.

### America's Bread Basket

Each American consumes, on average, 53 pounds of bread per year.

Assuming a sandwich was eaten for breakfast, lunch and dinner, it would take 168 days to eat the amount of bread produced from one bushel of wheat.

A family of four could live for 10 years off the bread produced by one acre of wheat.

One bushel of wheat will produce 73 one-pound loaves of bread.

In 1997, Kansas's wheat farmers produced enough wheat to make 36.5 billion loaves of bread, or enough to provide each person on earth with 6 loaves of bread.

Farmers receive approximately five cents (or less) from each loaf of bread sold.

### Piggy, Piggy

Pigs can't sweat. Pigs have no sweat glands, that is why they roll around in mud to cool off.

Heart valves from hogs are used to replace damaged or diseased human heart valves.

A pig can run a seven-minute mile.

A baby pig, or piglet, weighs about 3 1/2 pounds at birth and will double its weight in just 7 days.

### It's Presidential

George Washington liked ice cream so much he reportedly had a bill for \$200 for ice cream one summer.

The first ice cream cone was made, served, and eaten in New York City on September 22, 1886. The maker, Italo Marchiony, was granted a patent on his cone mold in 1903.

Abe Lincoln's mother died when the family dairy cow ate poisonous mushrooms and Mrs. Lincoln drank the milk.

### We Depend on Each Other

Farmers use computers designed and built in cities to track market information, maintain balance spreadsheets, and monitor weather satellites.

The environment and everyone in it benefits from research on biodegradable plant products that break down easily in landfills.

Agriculture land provides food and habitat for 75% of the nation's wildlife. Deer, moose, fowl and other species have shown significant population increases in the past several years.

Genetic engineering with plants and animals has resulted in new antibodies for immunizations. Other research has developed surgical techniques and pharmaceuticals from agriculture that help save lives.

Ethanol and new bio-diesel fuels made from corn and other grains are beneficial to the environment and promote energy security.

### Soybeans

Soy crayons have been created to replace toxic petroleum-wax crayons. Soy crayons are safer to use, brighter in color, and less expensive to produce.

One acre (43,560 square feet) of soybeans can produce 82,368 crayons.

Soybean oil is the most widely used vegetable oil. It is found in margarines, salad dressings, canned foods, sauces, bakery goods, and processed fried foods.

### Crazy about Cotton

U.S. textile mills presently convert over half of the cotton they use into clothing.

The majority of cotton is used for men's and boys' clothing, with jeans, underwear, and shirts topping the list.

If all of the cotton produced annually in the U.S. were used to make one product, such as blue jeans, it would make five billion pair.

One bale of cotton can produce 1,217 men's t-shirts or 313,600 one-hundred dollar (\$100) bills.

Cotton's home uses range from bedspreads to window shades. It is by far the dominant fiber in towels and washcloths. Cotton is also popular in sheets and pillowcases.

Industrial products containing cotton include wall coverings, book bindings, and zipper tapes. The biggest cotton users in this category are manufacturers of medical supplies, industrial thread, and tarpaulins.

Cotton is a food crop. Al-

most 200 million gallons of cottonseed oil are used in food products such as margarine and salad dressing. Cottonseed and cottonseed meal are used in feed for livestock and poultry. Even products such as toothpaste, ice cream, and the paper money used to buy them contain by-products of the cotton seed.

The Cotton Belt covers the southern half of the United States, reaching from Virginia to California. Texas is the top cotton-producing state, harvesting about one-third of the crop each year.

### The Food We Eat

In 1996, each American consumed an average of 77 pounds more of commercially grown vegetables than in 1970; 63 pounds more grain products; 54 pounds more fruits; 32 pounds more poultry; 10 gallons more milk lower in fat than whole milk; 20.5 pounds less red meat; 73 fewer eggs; and 17 gallons less whole milk.

It takes just 40 days for most Americans to earn enough money to pay for their food supply for the entire year. This compares to the 129 days it takes the average American to earn enough money to pay federal, state and local taxes for the year.

More than 96 billion pounds of edible "surplus" food is thrown away in the U.S. each year. It is estimated that almost 27% of our food supply is wasted.

Americans are eating about 14 pounds of turkey apiece each year, more than double the rate 20 years ago.

# Crop rotation planning

Crop rotation is not a new tool in the farming armory, the Romans practiced a system known as "food, feed, and fallow" 2,000 years ago. The basics haven't changed that much. Crop rotation promotes soil fertility, can contain plant disease, help prevent weed infestation, and last and by no means least, lessen the risk or impact of insect infestations and thus lessen the need for costly and sometimes environmentally unfriendly pesticides. For organic farmers, who are unable to use chemical alternatives, crop rotation is a must for healthy crops and profits.

Crop rotation is defined by the United States Department of Agriculture (USDA) as applying to, "Growing various crops in the same field in a planned sequence. This sequence may involve growing high residue producing crops, such as corn grain or wheat in rotation with low residue producing crops such as soybeans or crops where crop residues are harvested such as silage corn. The rotation may also involve growing forage crops in rotation with various field crops."

Crop rotation systems that are applied to a farm will vary in effectiveness depending on the soil type, the

farming operation, and the type of crops that are produced. The USDA says that the most effective crops to improve the soil are fibrous rooted high residue crops such as grass and small grain. You may also want to consider growing perennial forage crops to decrease soil erosion and build up organic matter in the soil. The advantages of crop rotation cited by the USDA include:

- Reducing disease, insect, and weed cycles.
- Reducing economic and environmental risks.
- Crop rotation is low cost and relates well to no-till planting, strip cropping, contour farming, crop residue management, diversions, terraces, and grassed waterways.

Like any good business practice, crop rotation needs to be planned and adapted into your particular set of farming circumstances and may need to be changed to suit your current land conditions and market demands. For example, you might want to consider replacing a residue crop with a no-till crop of an equal or greater residue.

The planning of your crop rotation system is critical, however, help and advice is available. Contacting the National Resources Conservation Services (NRCS) should be high on your priority list. Formerly the Soil Conservation Service, the NRCS says that it has been helping U.S. land owners and managers conserve soil, water and other natural resources since 1935. There are NRCS service centers in most U.S. counties and your local NRCS service center should be able to advise you and answer your questions when you are planning your crop rotation system. Also, sometimes it is essential to contact the NRCS, for example, the USDA says that you may extend your years of hay but must consult your local NRCS office before extending years of crops such as silage corn; other crops on a continuous no-till system can be replaced one for another.

Today the NRCS provides:

- Technical assistance based on science and the client's needs.

- Many programs, participation in which is voluntary.

- Financial assistance for some conservation activities.

One significant NRCS program, the Conservation Technical Assistance (CTA) program, says that it provides, "Voluntary conservation technical assistance to land users, communities, units of state and local government, and other federal agencies in planning and implementing conservation systems." Other services that the CTA program says that it provides include:

- Managing natural resource conservation programs, which provide environmental, societal, financial, and technical benefits.

- Providing science and technology services in the areas of animal husbandry and clean water, ecological sciences, engineering, resource economics, and social sciences.

- Soil science and leadership for soil surveys for the National Resources Inventory (NRI).

- Technical assistance for foreign governments and participation in international scientific and technical exchanges.

"We reach out to all segments of the agricultural community, including underserved and socially disadvantaged farmers and ranchers, to ensure that our programs and services are accessible to everyone," says the NRCS.

tory price of only \$99, customers can make owning the HTC Hero an even better value when taken in conjunction with our \$39.95 Smartphone Unlimited Data and Texting Package.

"Our customers are saving hundreds of dollars each year compared to other leading competitor plans. Plus, Northwest Missouri Cellular customers know they're going to get the most out of their Android-powered device with our superior 3G network," Bundridge said.

Northwest Missouri Cellular is a locally owned and operated wireless communications company serving Atchison, Holt, Nodaway, Worth and Gentry counties. Services and features offered include National, Family, Youth, Senior and Unlimited plans, carryover minutes and data service. Northwest Missouri Cellular focuses on serving customers by providing the four C's, coverage, customer service, cost and community commitment.

**Mound City Police Chief John Panning-** Holds the new Stalker Radar Unit purchased by the city of Mound City Police Department to help in enforcing speed limits around the town. The 2010 Chevy Impala is the new patrol car purchased recently by the city.

## Mound City PD sees improvements

The Mound City Police Department has upgraded and purchased several new pieces of equipment to better serve the city and the community.

A new 2010 Chevy Impala with equipment was purchased locally, with 53% of the cost coming through a USDA Grant, prepared by City Clerk Patsy Smith. The new cruiser will replace the 1999 Ford Crown Victoria.

A new radar gun, a Stalker Radar Unit, has recently been purchased and can be used in both patrol cars. There have been several complaints around town of speeding and the police department plans to resolve the issue using the new equipment.

The 2001 Ford Crown Victoria, which was purchased through a MIRMA Grant in 2009, is equipped with the Watch Guard System. This car video system will record

traffic stops and person contacts for officer safety. The grant paid 75% of the cost of the unit, with the grant being prepared by Chief John Panning. The new Impala is also equipped with the Watch Guard System.

The last piece of technology upgrade will be the purchase of two handheld radios and three mobile radios through a Local Law Enforcement Grant which pays 90% of the cost. The grant, prepared by Chief J. Panning, will replace the radios that the department has with P25 compliance radios which are narrow band.

Chief Panning, Officer Luke Lee and Reserve Officer Grant Gillett are pleased to have the new equipment to serve the residents of Mound City. The new equipment will better assist them to accurately and adequately perform their duties.

## Holt County traffic violations

The following traffic violations that occurred in Holt County were paid through the Missouri Judiciary Fine Collection Center:

**Cona L. Billyzone-** Of Lancaster, CA, Exceeded Posted Speed Limit (Exceeded By 20 Mph Or More). Case filed on February 28, 2010. Case disposed on March 12, 2010.

**Rajinder S. Bindra-** Of Omaha, NE, Exceeded Posted Speed Limit (Exceeded By 16 - 19 Mph). Case filed on February 27, 2010. Case disposed on March 10, 2010.

**Anton A. Blagonya-** Of Sedalia, MO, Operate Motor Veh W/Vision Reducing Material Applied to Windshield/Excess Vision Reducing Material Applied To Side Window. Case filed on February 27, 2010. Case disposed on March 9, 2010.

**Amy M. Blain-** Of Falls City, NE, Failed To Display Plates On Motor Veh/Trl and Driver/Front Seat Passenger 16 y/o or Over Fail to Wear Properly Adjusted/Fastened Safety Belt. Case filed on February 18, 2010. Case disposed on March 9, 2010.

**Amanda J. Crider-** Of Oregon, MO, Exceeded Posted Speed Limit (Exceeded By 11 - 15 Mph). Case filed on February 23, 2010. Case disposed on March 11, 2010.

**Mike J. Ekeler-** Of Lincoln, NE, Exceeded Posted Speed Limit (Exceeded By 16 - 19 Mph). Case filed on January 25, 2010. Case disposed on March 8, 2010.

**Justin P. Endicott-** Of Kansas City, KS, Exceeded Posted Speed Limit (Exceeded By 16 - 19 Mph). Case filed on January 23, 2010. Case disposed on March 11, 2010.

**Felecia A. Johnson-** Of Omaha, NE, Exceeded Posted Speed Limit (Exceeded By 16 - 19 Mph). Case filed on January 31, 2010. Case disposed on March 8, 2010.

**Catharine T. Kenny-** Of Skidmore, MO, Exceeded

Posted Speed Limit (Exceeded By 16 - 19 Mph). Case filed on March 3, 2010. Case disposed on March 11, 2010.

**Ruby F. Quimby-** Of Craig, MO, Exceeded Posted Speed Limit (Exceeded By 16 - 19 Mph). Case filed on February 18, 2010. Case disposed on March 8, 2010.

**Josie K. Rabbass-** Of Kearney, MO, Exceeded Posted Speed Limit (Exceeded By 16 - 19 Mph). Case filed on February 18, 2010. Case disposed on March 11, 2010.

**Zachary D. Schawang-** Of Mound City, MO, Driver/Front Seat Passenger 16 y/o or Over Fail to Wear Properly Adjusted/Fastened Safety Belt. Case filed on January 31, 2010. Case disposed on March 11, 2010.

**Michael D. Slezak-** Of Omaha, NE, Exceeded Posted Speed Limit (Exceeded By 16 - 19 Mph). Case filed on February 27, 2010. Case disposed on March 12, 2010.

**Eartha J. Taylor-** Of Excelsior Springs, MO, Exceeded Posted Speed Limit (Exceeded By 11 - 15 Mph). Case filed on February 1, 2010. Case disposed on March 8, 2010.

**Chad L. Underwood-** Of Platte City, MO, Operate Motor Veh W/Vision Reducing Material Applied to Windshield/Excess Vision Reducing Material Applied To Side Window. Case filed on February 12, 2010. Case disposed on March 9, 2010.

**Kyle J. Veddar-** Of New Haven, MO, Exceeded Posted Speed Limit (Exceeded By 11 - 15 Mph). Case filed on January 10, 2010. Case disposed on March 9, 2010.

## Arrest report

Kenneth L. Turner, 60, of Quitman, MO, was taken into custody on March 10, at 3:09 p.m. for harboring a fugitive from justice- Class B. He was taken to the Holt County Jail on a 24 hour hold.

## NWMC announces launch of HTC Hero Android device

Northwest Missouri Cellular, the areas premier wireless provider, announced today the launch of its first Android-powered smartphone, the new HTC Hero™, the first of a variety of Android-powered smartphones Northwest Missouri Cellular plans to offer.

"The arrival of HTC Hero and the Android platform to Northwest Missouri Cellular's network is an important milestone for our customers" General Manager Roger Bundridge said.

Any Android phone is fully customizable with access to thousands of applications and one-touch access to your email, music, the web and more.

HTC Hero is the first U.S. device to feature HTC Sense, an intuitive experience that allows the device to be completely customized to the wants and needs of the user. The device's seven-panel wide home screen can be populated with customizable widgets that bring information to the surface.

Smartphones are only as good as the network on which they operate. Northwest Missouri Cellular's 3G technology is the only advanced high-speed mobile broadband network available in the area.

The HTC Hero has built-in

Google mobile services with synchronization, including Google Search™, Google Maps™ and Gmail™, as well as access to thousands of applications on the Android Market™. It also offers easy access to personal and business e-mail, instant messaging and text messaging through POP, IMAP and Exchange Active Sync accounts.

The fully loaded smartphone also features Wi-Fi capability, a 5-megapixel autofocus camera and camcorder, 3.2-inch HVGA touch-sensitive display, HTC Footprints™, GPS with digital compass, accelerometer, 3.5 mm stereo headset jack as well as Stereo Bluetooth® 2.0 Wireless technology. Additionally, this Android-powered smartphone gives customers the option to flexibly upgrade its memory with a MicroSD memory card, so they can easily add more memory without having to purchase a new device.

Available at Northwest Missouri Cellular for the introduc-

tion price of only \$99, customers can make owning the HTC Hero an even better value when taken in conjunction with our \$39.95 Smartphone Unlimited Data and Texting Package.

**A snowball rolling calf-** Named T-Rex, owned by Tiffani and Steven Bradbury of Forest City, MO, made these snow balls during one of the major snow storms of the winter. Their sons, Connor and Piper found the act extremely hilarious as their "pet" bull, a lively and friendly type, had created as many as four snowballs by that morning.

## Sen. Lager and Rep. Thomson visit South Holt school

Senator Brad Lager and Representative Mike Thomson were at South Holt High School on Friday, March 12, to visit with Mr. Tom Corrington's American Government class. The two legislators talked about the working of state government and their duties as members of the General Assembly. The two men also visited with teachers and students about the challenges facing rural school districts in the state of Missouri.

"Every segment of government is heading into difficult

financial times," said Lager. "The situation facing our schools is a great concern of mine. It will require some innovative solutions to help them weather the storm while we develop a plan to improve long-term budget certainty."

The Missouri General Assembly sat idle last week for its mid-session legislative break. For Lager and Thomson, it was an opportunity to spend time traveling the district and visiting with constituents.

## Platte City wrestler takes second at state

Blaine Conner, a senior wrestler from Platte County, finished his high school career with two very prestigious accolades.

Blaine is the son of Sherri Conner, Platte City, MO, and the grandson of Yogi and Katheryn Swymeler and Rex Andes of Mound City, MO. He is the great-grandson of Clinton and Ruth Swymeler, Mound City, and Eva Ruth Andes, Maitland, MO.

Blaine participated in the 80th Wrestling Championships at Mizzou Arena in Columbia, MO, on February 18-20, 2010. The 171 pound senior won his first three matches at state to advance to the championship match. He took second in the final match. The Platte County team placed first in Class 2.

On March 10, Blaine participated in the Missouri vs. Kansas Senior All-Star Dual at the Kansas City Kansas Community College in Kansas City, KS. The main purpose of the Metro Classic is to provide the opportunity to showcase the best senior wrestlers in the Kansas City Metro area.

Missouri beat Kansas 36-27 and Blaine pinned his opponent in less than one minute. He finished as a Wicina Scholarship Finalist, receiving a \$500 scholarship. Blaine finished his high school career with a 73-10 record, finishing first at state in '09 and second at state this year.

Blaine is planning to wrestle in college, but is undecided and continues to assess his collegiate prospects.

## Preschoolers enjoy Got Milk program

The Holt County preschoolers listened to a program, Got Milk, presented by Connie Jackson from the Holt County Health Department on March 9. The children learned about foods that are in the dairy food group. They learned that milk contains calcium that keeps their bones and teeth healthy and strong. At the end of the presentation, the children posed for a group picture with their milk mustaches. Each child received a coloring book (Milk Matters), a box of crayons and information for their parents about the Dairy Difference. Each child also received a "Got Milk" photo frame for them to take their group picture home in to share.

## South Holt students do well at fair

Seven South Holt students, along with their science instructor, Jonn Casey, attended the Mid-America Regional Science and Engineering Fair at Missouri Western State University in St. Joseph, MO, on Friday, March 12. The South Holt students had a very successful day.

Fifty-nine students from nine high schools, including North Andrew, Mid-Buchanan, Central, Lafayette, East Buchanan, Osborn, South Holt, Putnam County and Stanberry presented their research with their trifold display. Each participant was interviewed by at least two judges in each category. Awards were given to the top three places in more than seven different categories.

This is the first year the South Holt students have been to the fair.

Teacher Jonn Casey stated, "I like to show the students that science is a verb, something you do. It's not just about reading it out of a book."

The students had three projects this year using the Madagascar Hissing Cockroach, which made for some interesting projects.

Coldin Noellsch fed one group of the roaches a protein muscle builder powder to see if they in fact got bigger than the roaches fed regular food. The regular food ones won.

Christian Acamo tried to find out what made them hiss.

Ben Dudeck matched his

roaches with a sonic roach repeller in which the roaches stood on.

Keiffer Buckles had a great project on potassium levels in the Loess Hills of Missouri in which he worked with Missouri Western State University.

Ashley Graupman looked at walnut trees and why nothing grew to them.

Jennifer Kieser tried to find a math formula for tessellations.

Last but not least, Daisy Roberts used natural chemicals like peppermint to repel fruit flies.

South Holt students received the following honors in these categories:

Jennifer Kieser earned first place in the Math Category and received the Army Achievement Award.

Daisy Roberts earned first place in the Bio Chemistry Category and received the Army Achievement Award.

Keiffer Buckles earned second place in the Chemistry Category.

Christian Acamo earned second place in the Animal Science Category.

Ashley Graupman earned second place in the Environmental Management Category and received the Army Achievement Award.

Coldin Noellsch earned third place in the Animal Science Category.

Ben Dudeck earned fourth place in the Animal Science Category.

## “That’ll Learn Ya!”

By Taylor Blevins

The middle school students will soon be acting on stage. They have been preparing for weeks to put on a play called, “That’ll Learn Ya!”

The play is about a little western town that has been under a gypsy spell for 200 years – a spell that turned the whole village into nincompoops who are so clueless they sweep with the wrong end of the broom and put themselves in jail.

The cast members are selling tickets, or tickets can be purchased in the elementary office. If you have any questions, call 442-5420 for more information. The cost will be \$5.00 for adults and \$3.00 for children. The public is invited to attend the play on March 26 and 27.

**Cast Members include:**  
Edmund - Dalton Dreher  
Alice - Lily Grant  
Mayor - Jake Meyer  
Leon - Luke Sanders  
Ellen - Shaylin Miller  
Erskin - Ben Shifflett  
Deputy - Sara Murphy  
Sheriff - Merkin Karr  
Rosemary - Jorden Miller  
Vivian - Kenzie Ashford  
Meredith - Emily Thomas

Lydia - Kendey Eaton  
Magnolia - Eryn Acton

**Band:**  
Austin Acton, Sydney Ireland, Tess Phillips, Maggie Caton, Dalton Wilcoxson, Joeigh Eaton, Megan Grover, Sean Shepherd, Jaden Gillenwater

**Joke Tellers and Townspeople:**  
Gabrielle Heck, Rebecca Wheeler, Randy Smith, Blake Shifflett, Chandler Wilson, Dillon Stroud

**Townspeople/Dancers:**  
Carley Baker, Kimberly Corbin, Kaitie Smith, Brendon Jenkins, Jessica Johnson, Tasha Ritchie, Emily Wedlock, Lily Forehand, Mae Sanders, Savannah Derr, James Wheeler, Jarrod Hurst, Montana Kunkel, Hillary Russell, Autumn Griffin

**Lights and Sounds:**  
Lena Ashford, Nathan Hays

**Script Prompter/Stage Manager:**  
Grace Newcomb, Jamison Loucks

**Dance Choreographer:**  
Lily Forehand, Mae Sanders

**Director/Creator of the Jug Band:**  
Mrs. Becky Reinig and Mr. David Reiter

## Panther question of the week

By Jessica Gillenwater

**Question: What is your favorite Dr. Seuss book?**

## 2010 track and field begins

By Emilee Messer

Track practice began on Monday, March 8, 2010. This year's track team consists of approximately 40 members. The first meet will be on Thursday, March 25, at Grant City, starting at 4:00

p.m. The second track meet will be on Tuesday, March 30, at Dearborn, starting at 3:00 p.m. The third meet will be held on Tuesday, April 6, at Mound City, starting at 4:30 p.m.

## Farewell to Mrs. White

By Shelby Culp

For 30 years at Mound City R-2, Mrs. Diana White has been taking care of business, teaching classes such as computers, personal finance, dual credit business tech, computers and business law. Mrs. White has also been the coach of the Academic Bowl team since 1999. She has led district tournament finalists from 1999 to 2006 with each achieving All-District titles. In the MSHSAA Tournament, she led 6 students to receive all-state. The Academic Bowl team has won two state titles in the years of 1999 and 2004.

Future Business Leaders of America has also been something she has taken pride in over the last 30 years, getting students involved in activities such as trick or treat for the food pantry, bingo at the nursing home and selling hugs and kisses. FBLA members participate in contests and over the years, Mrs. White has taken three students to Nationals.

Students and teachers will miss her warm smile and unique humor. Thank you Mrs. White for all that you have done for the students at Mound City R-2.

## Class of the week

By Hailea Miller

This week's class of the week is Mrs. Parker's math class! The past two weeks the Middle School students have been working very hard and learning a lot while using their math skills. The students are learning a variety of different math topics.

The fifth grade students gathered data and created graphs. The sixth grade students are learning the system of measurements. The seventh graders have been learning percents and applications. The eighth grade students have been learning about exponential functions.

The math fact of the day: March 14 is known as “Pi Day” and is also Albert Einstein’s birthday!

## 275 Conference Spelling Bee to be held

By Ethan Miller

The 275 Conference Spelling Bee will be held at Craig R-III School. The date has been set for Tuesday, March 23, at 4:00 p.m in the gymnasium.

Several students will represent Mound City R-2. Autumn Griffin and Emily Thomas are the two repre-

sentatives for the seventh grade, Jaden Gillenwater is the representative for sixth grade, Savannah Derr is the representative for fifth grade, Austin Pankau is the representative for fourth grade and Julius Berney is the representative for third grade.

## NHS blood drive

By Tiffany Kunkel

The Mound City National Honor Society is hosting a Community Blood Drive on April 1, 2010. It will be held in the high school cafeteria from 2:30 to 7:00 p.m. If you are willing to donate, please contact Mrs. Harrison at the Mound City High School. There is an increasing low of blood supply in our area and every donor would be greatly appreciated.

# Spring interpretive programs to start this weekend at the refuge

The Squaw Creek National Wildlife Refuge (NWR) is starting the spring interpretive programs scheduled to start this weekend, March 20.

These interpretive programs will be held at 10:30 a.m. on Saturdays and at 1:30 p.m. on Sundays.

Squaw Creek holds several special events each year that offer opportunities for the public to participate in outdoor recreation and volunteering. Below is a complete list of activities and programs coming up for the Spring of 2010.

**Interpretive Programs**

March 20- Butterflies, 10:30 a.m.

Location: Refuge Headquarters Auditorium

Join a Squaw Creek NWR Naturalist for an up close look at butterflies and their amazing lives. The entire refuge butterfly collection will be on display.

March 21- Waterfowl Identification, 1:30 p.m.

Location: Refuge Headquarters Auditorium

Do you need a little help naming those ducks? Join a Squaw Creek NWR Naturalist for a program and refuge tour while learning how many ducks migrate through Squaw Creek NWR.

March 27- Baby Animals, 10:30 a.m.

Location: Refuge Outdoor Classroom

Learn about the unique stories of young wildlife. Join a Squaw Creek NWR Naturalist for an up close look at amazing wild animals that are born in the spring. Following the program, there will be a guided hike looking for the wildlife and their homes.

March 28- Wonders of the Insect World, 1:30 p.m.

Location: Refuge Outdoor Classroom

With spring in the air, new insects are ready to appear for the summer. Join a Squaw Creek NWR Naturalist for an up close look at the amazing life of insects as they emerge.

April 3- Birding Back to Basics, 10:30 a.m.

Location: Refuge Headquarters Auditorium

Learn about the tools and techniques that biologists use to identify birds around the world. Join a refuge Naturalist for a program studying important characteristics of birds in northwest Missouri. Following the program, a short nature hike will take you to some of the best birding spots in the area.

April 4- Habitat, 1:30 p.m.

Location: Refuge Outdoor Classroom

Join in the outdoor classroom to take a closer look at the habitat around us. You'll explore the diversity of habitats around us and the animals that use them. A refuge Naturalist will lead participants in a nature hike following the program.

April 10- Trees –Buds and Blossoms?, 10:30 a.m.

Location: Refuge Headquarters Auditorium

Explore the loess hills and the unique trees that make them home. Learn Naturalist tricks for identifying trees all year. Join a Squaw Creek NWR Naturalist decoding the secrets in tree buds.

April 11- Geo Catching Photos, 1:30 p.m.

Location: Refuge Headquarters Auditorium

Join a refuge naturalist for a program on how a GPS unit works. Learn what you can have while using your GPS for family adventures. Visit and photograph the locations as part of the treasure hunt. Return to the visitors' center with your photos and win a prize.

April 17- Who You Calling Turkey?, 10:30 a.m.

Location: Refuge Headquarters

Learn about the amazing wild turkey and its return in Missouri. Explore the loess hills where wild turkeys call home. Join a Squaw Creek NWR Naturalist for a program and hike to see where wild turkeys live.

April 18- Woodland Wild Flower, 1:30 p.m.

Location: Refuge Headquarters Auditorium

Find out what exciting treasures await in the forest this spring. Learn to identify common wildflowers in Missouri. Join a Squaw Creek NWR Naturalist for a program and hike looking for wild flowers in the forest at Squaw Creek NWR.

April 24- Birding Squaw Creek, 10:30 a.m.

Location: Refuge Headquarters Auditorium

Do you hear any new birds? Spring is in the air! Join a Squaw Creek NWR Naturalist for a program and refuge hike looking at the many different song birds found on the refuge.

April 25- Mushroom Hunting, 1:30 p.m.

Location: Refuge Headquarters Auditorium

Find out what all of the excitement is this spring in the woods. Learn to identify edible mushrooms in Missouri. Join a Squaw Creek NWR Naturalist for a program and hike looking for mushrooms on the refuge.

May 1- Shorebirds and Moist Soil at Squaw Creek NWR, 10:30 a.m.

Location: Refuge Headquarters Auditorium

Can you identify that small bird on a mud flat or hidden in the weeds? Join a Squaw Creek NWR Naturalist for a program and refuge hike looking at shorebirds and refuge wetlands.

May 2- Birding Squaw Creek, 1:30 p.m.

Location: Refuge Headquarters Auditorium

May 8- Super Slithering Snakes, 10:30 a.m.

Location: Refuge Outdoor Classroom

Come out to the refuge for a great look at the world of snakes! Learn where snakes live here in Holt County and their favorite hiding spots. Join a refuge naturalist for fun games and a short hike.

May 9- Mayfly, Where Are You!, 1:30 p.m.

Location: Refuge Outdoor Classroom

Learn where all the flying insects come from. Join a refuge naturalist for a peek at the small critters that live in the mud at Squaw Creek NWR. Did you know some dragonflies can live in water for seven years before emerging to fly for only seven days?

For more information on spring programs visit the refuge website at [www.fws.gov/squawcreek/Spring2010](http://www.fws.gov/squawcreek/Spring2010) or call Squaw Creek Refuge at (660) 442-3187.

## Shiloh 4-H gives back to the community

Donations to the Pantry of Plenty were made by members of the Shiloh 4-H Club left to right, back row, Carina Metzgar, Kimberly Corbin and Gabrielle Heck. Accepting the donation checks are left to right, front row, Dee Hughes for the Hope House, Forest City, MO, and Helen Runnels for the Pantry of Plenty, Mound City, MO.

The Shiloh 4-H Club met on March 14. The club members also presented the FCCLA with a donation for its help with the club's paper recycling project. The Paper Drive is scheduled for April 11, 2010, from 3:00-5:00 p.m. at the Griffith Park. The Adopt a Highway trash pickup day is scheduled for May 2.

## Mound City MFA closed for repairs

The Mound City MFA has been closed for repairs since Monday, March 8, in order to get into compliance with state rules and regulations and OSHA regulations.

Six fuel and diesel tanks were moved from inside the containment unit to make the improvements to the containment. While the tanks were out, they were examined, and despite finding no leaks, it was determined to put new floors in the bottoms of the speculated 20 year-old tanks.

Four 15,000 gallon tanks, one 8,000 gallon tank and one 4,000 gallon tank each had a new bottom put in them, delaying the project's completion.

"The project took a little longer than we'd anticipated because of the decision to add the new floors," remarked Manager Ron Jumps. "I appreciate everyone's patience and am sorry for any inconvenience."

Subcontractors, from Sedalia for MFA are making the improvements as part of a statewide MFA improvement project. Other area MFA's will be seeing the same kinds of regulatory repairs being done. Mound City MFA plans to reopen its pumps for business on Friday, March 19.

**660-442-5165**

**Jonathan Miller-** Gets settled into his new office space at 514 State Street in Mound City, MO.

## New office space for Shelter Insurance

Jonathan Miller, Shelter Insurance Agent, in Mound City, MO, has recently relocated to a new office site at 514 State Street. The new office space was previously part of the Northwest Health Services Annex.

The front entrance of the building was changed, adding an additional door to the foyer. Walls were taken out and some added to the portion of the old space that housed the annex foyer and reception office of the clinic. New carpet, walls and cabinetry finished the new office space that includes a conference room.

The new location provides for off street parking (behind the building), conference area for more private estate planning, trust and insurance issues.

"As the business grows, the new location will better serve my customers," stated Jonathon Miller.

While most of the renovations are finished and Jonathan Miller's first day in the office was March 15, plans are to enlarge the front window. An open house is being planned for mid April.
