Big Lake State Park reopens for visitors

Big Lake State Park near Mound City is once again entertaining visitors who enjoy a great outdoors with the variety of popular events. The park reopened on Wednesday, September 1.

When the flood of 2010 hit the park on June 17, all of its 407 acres and its facilities were inundated with water. Holt County, where the park is located, is one of 29 northwest Missouri counties declared as federal disaster areas. After many weeks, the water receded and cleanup and rebuilding efforts began.

The rebuilding of Big Lake State Park became a division priority with all available resources used to assist in the effort. Staff from surrounding parks and sites have been assisting with the cleanup and rebuilding effort.

Eight cabins, 10 motel rooms, the campground including basic and electric sites, playground, boat ramp, convenience store and snack shop were made available to the public on September 1.

The motel, cabins, camping facilities, playground and convenience store/snack shop have had the needed improvements and are ready

for use. The convenience store and snack shop offer a full menu with breakfast, lunch and dinner available. Paddle boats, canoes, boats, bicycles and scooters are available to rent from the store as well.

Campsites are available on a first-come, first-served basis. Reservations made previously for arrival on or after September 1 will be honored and a number of campsites may be reserved now through October 3 arrivals.

Staff will continue to work on rebuilding and repair efforts at the park. The swimming pool, dining lodge and motel are among the list. Other construction during the next several months will include upgrading 10 campsites from 30 amp to 50 amp electric service.

Although much has been done to reopen the park to the public, the effects of the flood can still be seen. Much of the ground has been reseeded and more work throughout the coming months will be accomplished, in order that Big Lake State Park can once again become a favorite outdoor activity spot in northwest Missouri.

The 2010 harvest underway

The Kings purchased the business in August of 1999. They have 16 employees and are always at the store daily themselves.

"We're in our early 70's and felt it was time for

someone younger to take over the business," commented Dorothy on the sale. "We were concerned that the store would stay updated and are excited to have Jim who has experience to take over."

A more in-depth article will follow later, as the transition of the new owner evolves.

Tickets are \$10 adult at the door or \$8 in advance at Nodaway Valley Bank, where tickets will be available beginning Monday, September 13. Students (under 16) are \$5. The performance is sponsored by the State Theater Arts Council and Missouri Arts Council.

Phishing is the criminal act of attempting to collect sensitive information from you such as user names, passwords, bank information, credit card details or other sensitive information by pretending to be a trustworthy source. BREASTFEEDING BETTER FOR MOM - BETTER FOR BABY

Breastfeeding Benefits for Baby

- Contains all the nutrients baby needs for the first 6 months of life.
- Changes to meet a growing baby's needs.
- Protects against illnesses such as ear and respiratory infection.
- SIDS (Sudden Infant Death Syndrome) risk reduced.
- Reduces risk of allergies, asthma, diabetes, and certain childhood cancers.
- Breastmilk is easy to digest, so breastfed babies have less gas, colic, spitting up, diarrhea and constipation.
- Supports optimal brain development, breastfed babies are smarter.

Breastfeeding Benefits for Mom

- No preparation needed.
- Always readily available.
- Saves money.
- Helps with weight loss after pregnancy.
- Helps uterus return to normal size and reduces bleeding after birth.
- May reduce your risk of osteoporosis, breast cancer, and ovarian cancer.
- Creates a special bond between you and your baby.

Tips for Successful Breastfeeding

Keep your baby skin-to-skin and try to nurse within the first hour after delivery.

Breastfeed on demand: 8-12 times per 24 hour period to establish milk supply and satisfy your baby's needs. The more you nurse the more breastmilk you will produce.

Avoid bottles and pacifiers until you and your baby have learned to breastfeed.

Avoid water and formula supplements. Breastfeeding should not be painful. If you are experiencing pain, then get help.

Missouri WIC (a supplemental nutrition program for women, infants, and children) supports no formula the first month. Providing formula can decrease your milk supply and lead to early weaning. See the sample WIC income guidelines below and call the health department for an appointment if you think you qualify.

Holway Telephone makes donation to school

The Nodaway-Holt Academic Team received a \$250 donation from Holway Telephone/NW Communications for the purchase of a new buzzer system to be used during academic meets. The school's buzzer was destroyed in the fire two years ago.

Holway members Glenys Morrow and Paul Sanders made the presentation to the school and academic team sponsors on Thursday, September 2.

Stacy Calfee and Melissa Jackson will be sponsoring the Nodaway-Holt Academic Team in the spring.

"This is just another way Holway has shown support for our school system. We are appreciative of its continuous support and service," Superintendent Karma Coleman said.

Time to plant forages

The first two weeks in September provide the most consistent stand establishment of forage crops. This is a time when rains generally come, temperatures moderate and new seedlings establish before going into winter.

Most forage grasses can be sown in the late summer or early spring. Annual lespedeza, red clover and sweet clover should be mid-winter or early spring sown. Birds-foot trefoil is usually spring seeded but may be sown in fall under good moisture conditions.

Take time to prevent seeding failures. Seeding failures are expensive because of the cost of seed, fertilizer, time and equipment, but the loss of production for the following season. Apply adequate fertilizer, correct seeding rates, proper seed depth and good soil to seed contact.

Fall seedings have the advantage of less weed competition, but the key is having soil moisture present. The disadvantage is that insects like to feed on the young tender plants. Fields should be watched carefully for grasshopper and other insects moving from the field borders inward.

The addition of small grain as a companion crop can be used on erosive soil to protect the young seedling. Spring oats planted in the fall will kill and provide mulch in the fall. Winter wheat can also be companion crop, but be careful that the competition from a taller crop may reduce forage stands.

You did it!

Citizens of Southeast Nebraska, Northwest Missouri, and Northeast Kansas:

By pulling together you made possible construction of a new Missouri River Bridge on U.S. Highway 159 at Rulo, NE four years sooner than anyone would have thought possible. A Groundbreaking Ceremony will be held 3 p.m., Sun., September 19, 2010 at Rulo, and we want you to be there to join the celebration!

Nebraska Governor Dave Heineman will be the keynote speaker and will be among those who ceremonially put a shovel to earth celebrating the start of construction on the new Bridge. Refreshments will be served, plans will be available for viewing, and chairs will be set up under a tent for the comfort of those attending the short program.

When Mitch Glaeser first urged you to write letters of support for a new bridge in the Fall of 2007, this bridge seemed an impossible dream with no funding in place to make it a reality. But, you responded! Over 1,600 letters of support were received. Citizens from the three states came together and formed the Tri-State Corridor Alliance. Your plea for a new, safe bridge to spur economic development was heard by elected and appointed state and federal officials. Federal funds were obtained for bridge planning, and shortly thereafter construction funding was put in place by the federal government and the states of Nebraska and Missouri.

Put the date September 19th on your calendar. Come celebrate the start of construction on a "Bridge to a Bright Future" for the three-state region!

Thank you,

Charlie Radatz & Beth Sickel

Co-Chairs of the Tri-State Corridor Alliance

P.S. Remember to join us for the Rulo Bridge Grandbreaking at 3 p.m. on September 19th!!

The second set belonged to the Blue Jays as they were the more aggressive and attacking team. They prevailed 25-11, setting up a decisive third game. Rock Port struck first and lead 5-3 before CFX quickly tied it up. From there it was back and forth until CFX served with the score tied at 10. Positive behavior support system

By James Schoonover

The Mound City R-2 School District began implementing a Schoolwide Positive Behavior Support system to inform and communicate ways to be respectful and responsible in a safe learning environment. There were three expectations designed to create a climate of cooperation, academic excellence, respect and safety at school.

The guiding principles are: clear expectations for student behavior, clear and consistent strategies for teaching appropriate be-

havior, clear and consistent strategies for encouraging appropriate behavior, clear and consistent consequences that discourage inappropriate behavior. Students are expected to be safe, respectful, and responsible. If the students are seen displaying these qualities, teachers give them PBS cards. Students are responsible to sign their name on the card and put the card in a container for a drawing every Friday. At the end of the week, the cards are selected for different prizes.

THANK YOU / REMEMBERING

Thank You

I would like to thank everyone for the tremendous amount of cards of sympathy the community and surrounding communities have sent to my mother, myself and the family of Mike Whetsel as well as the large amount of food and household items. I wish to thank the Brother Masons with a special thanks to Brothers Jack and John Vernon and the Brothers of the Fairfax Lodge and all of the Brothers from the adjoining lodges who helped in making the Masonic services so awesome. It was a tremendous show of brotherhood. Mike would have been very proud.

I wish to thank the Nazarene Church and Pastor Keith Knaak for the wonderful dinner and the use of the church for the service.

I wish to thank Pastor Crystal Karr for being there for me.

Also, a very special thank you to Pastor Rob Self and his wife for being there for my sister-in-law and family to help them through their trying times, what a tremendous memorial service.

A special thanks to friend, Terry Eaton, for his praise of my brother in his article and to say take care of yourself, Terry. Mike would want you to finish the project you and the city have started on the water plant.

May God bless you all, Larry D. Whetsel

THANK YOU

The family of Mike Whetsel would like to express its sincere gratitude to all members of the community who delivered food and household items, who shared their stories of Mike, who attended the visitation and funeral, and simply showed how much they care about the man he was. We were overwhelmed by the generosity and the coming together of the community.
